WOOD BORING TOOLS

EACH BIT STAMPED WITH THE UNION LABEL

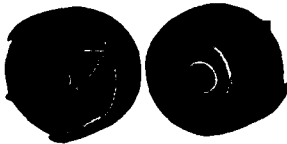

We especially request that all electricians try to get not only their own members but also carpenters and plumbers to use this union made bit.

THE W. A. IVES MFG. CO.,

(Established 1830)

Wallingford, Connecticut.

Blake Compressed Cleats

Pat. July 1906

Convenient to carry and to use. Will not collect dust and dirt nor get on tools in kit. You can get the soldering flux just where you want it and in just the desired quantity.

BLAKE
Signal & Mfg. Co.
251 Causeway St.
BOSTON : MASS.

BLAKE TUBE FLUX

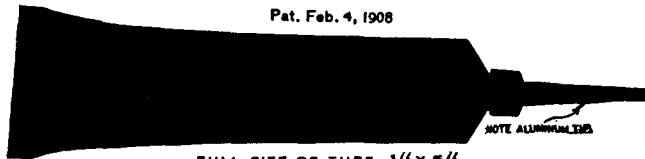

Blake Insulated Staples

4 Sizes

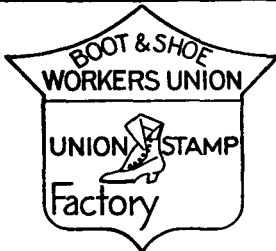

Pat. Nov. 1900.

Pat. Feb. 4, 1908

FULL SIZE OF TUBE, 1" x 5"

Named shoes are frequently made in non-union factories

DO NOT BUY ANY SHOE

No matter what its name, unless it bears a plain and readable impression of the UNION STAMP

All shoes without the UNION STAMP are always Non-Union
Do not accept any excuse for absence of the UNION STAMP

BOOT AND SHOE WORKERS' UNION

URGE CONGRESS TO CONTINUE THE UNITED STATES EMPLOYMENT SERVICE

By N. P. Alifas.

During the period of the war much of the energy of the Federal Government was devoted to the task of smoothening and preparing the way for the general re-alignment of industry to meet the new conditions.

These re-alignments of industry made it necessary for large numbers of men with families to move into new localities, and industry of all kinds to shut down, causing temporary unemployment of those engaged in the business.

In order to mitigate these hardships of the people several agencies of the Government were established to study out in detail all of these changing conditions and prepare for the changes in advance. Chief among these agencies was the United States Employment Service.

By the time the last Congress closed on March 4, 1919, the huge task of organizing this service had largely been accomplished and it was beginning to function in a way that made it of great benefit to the returning soldiers and the unemployed, both union and non-union.

The service had succeeded in coordinating the employment activities of such public and quasi-public institutions as the American Federation of Labor, the American Red Cross, the Council of National Defense, the War and Navy Departments, the War Labor Policies Board of the Department of Labor, and many others. It had also organized nearly two thousand special bureaus throughout the industrial centers of the United States to handle the returning soldiers, sailors and war workers.

It had established branch offices in many large industrial plants that were due for demobilization in order that the workmen there might obtain positions elsewhere in advance of their discharge. This eased the minds of thousands of

men who otherwise would have unemployment staring them in the face with the attendant hardships to themselves and families.

During the brief period of its existence it had succeeded in placing hundreds of thousands of men, and was fast becoming recognized as a clearing house for prospective changes in employment by the workers of the United States.

Previous to the organization of the United States Employment Service, and particularly in times of peace, men were oftentimes obliged to secure employment through agencies established by Employers Associations with the attendant possibilities of the "black list" and unjust discriminations, resulting in a feeling on the part of the worker that his personal liberty was being taken away from him; and not only his workmanship was considered, but that his activities in Labor Organizations, civic organizations, and even his home life and his religion were being interfered with.

There was also in existence private employment bureaus whose services were secured by the payment of a fee. These bureaus oftentimes were mere fakes, and lived upon the misfortunes of their fellow men who paid their fees and received no service in return therefor. The organization of the United States Employment Service therefore met a long felt want due principally to the fact that it had possibilities of being made an impartial institution, freeing the unemployed from the horrors of the "black-list" and the charges for securing employment which they were not able to meet.

Unfortunately, there were influence at work in the House of Representatives to defeat appropriations for the maintenance of this government bureau when

the matter came before that body in the Sundry Civil Appropriation Bill. Approximately \$15,000,000 for its maintenance was asked for, all of which was defeated by points of order being raised against it by members of Congress who evidently were opposed to the Employment Service. Congressman Edward Peating of Colorado, the Floor Leader of the Labor Group in the House of Representatives, made a splendid fight in behalf of this service and in behalf of the laboring people. He pointed out that if there was any genuine desire to continue this very necessary service it could have been done, as had been the case on other issues in the past, by the Appropriation Committee of the House securing a special rule from the Rules Committee bringing these items of appropriation in order, all of which was of no avail, and why?

Perhaps a reason can be found—In an article appearing in the March, 1919, issue of the "World's Work", on page 497 and 498, which quotes an article appearing in "Industry", a paper published in Washington in the interest of employers, the charge therein is made that the United States Employment Bureau, as conducted by the Secretary of Labor, William B. Wilson, merely represents an attempt to unionize American labor at the expense of the Government. It is further charged that practically all employees of this Bureau are Labor Leaders, professional organizers of Labor Unions, and that their activity, instead of getting men jobs, is to attempt to transform non-union into union shops. It is also charged that union men have a better opportunity of securing employment through this service than non-union men, and that employers who refuse to unionize their establishments have slim chances of getting workmen. The article winds up by observing that these charges are serious enough to justify Congress in investigating them before it appropriates \$15,000,000 for the continuation of the work.

These charges, if charges they be, (from a laboring man's point of view they do not look so bad) in the opinion

of some employers, constituted the reasons why the House of Representatives refused to continue this bureau, even to the point of disregarding their duty to the returning soldiers and the vast army of unemployed resulting from the cessation of war industry. Many of our alleged "public spirited" men and "representatives of the people" apparently felt that it was better to permit our returning soldiers and hundreds of thousands of men to shift for themselves, and become the prey of grasping employers, than to take a chance on having the United States Employment Bureau administered with a spirit of fairness and impartiality by the administrative officers of the Government.

The above charges which have been made by the employers against the Bureau are, however, mere inferences and suspicion. Some of the real policies of this bureau, insofar as it affects the trades-union movement, are as follows, according to the writer's understanding:

1. They will not supply employees to a concern where a strike exists.
2. They will not lend themselves to the maintenance of a black-list as employers would expect to have it maintained.
3. They are as ready to furnish employment to a union man as to a non-union man.

It is, of course, unfortunate for the employer that through the existence of unions the skilled workmen are as a rule members of Organized Labor, and the organization is active in endeavoring to find employment for its members. The non-union man having no organization, is obliged to shift for himself and loses this manifest advantage.

Under these circumstances, it appears to the writer that it should be the duty of every working man who cherishes liberty of action, security of employment, and the privilege of having a government agency which can assist him in making a change in employment if he desires, to write his Members of Congress and Senators, insisting that this Bureau should be continued not only as a reconstruction measure but as a permanent institution.

IN MEMORIAM

BROTHER LE ROY CRAWFORD.

Whereas, We have been called upon to bow to the divine and sovereign will of Almighty God in removing from among us by the Angel of Death our friend and brother, LeRoy Crawford, and

Whereas, We have sustained the great loss of a true-hearted, brave-spirited, honest man, a strong friend and an efficient and faithful member of our organization therefore, be it

Resolved, That we, the member of Local Union No. 225, I. B. E. W., express our heartfelt sorrow and extend to his family our sincere condolences; and be it further

Resolved, That our charter be draped in mourning for a period of thirty (30) days, as a token of respect to his memory, and that a copy of these resolutions be spread upon the minutes of this local, and that a copy thereof be furnished to his bereaved family, and that a copy be sent to the Electrical Workers' Journal for publication.

W. P. Hill, Rec. Secy., Local 225, Norwich, Conn.

BROTHER GUSTAVE H. J. ALPEN.

Whereas, It has pleased the Almighty in His infinite wisdom to remove from our midst our esteemed and beloved Brother Gustav H. J. Alpen; therefore be it

Resolved, That we as members of Local Union 36, International Brotherhood of Electrical Workers express in our humble way our heartfelt sympathy to his bereaved family in this hour of sorrow; be it further

Resolved, That Brother Gustav H. J. Alpen was a true and loyal member of our Union, an honest and trustworthy workman; be it further

Resolved, That our charter be draped for thirty days, that a copy of these resolutions be sent to the bereaved family, a copy sent to our official journal for publication and a copy be spread upon the minute book of our Union.

R. P. Meigs,

Recording Secretary.

P. C. Cleek,

H. N. Petersen,

A. B. Eastabrooks,

Committee.

BROTHER C. CHESNEY.

Whereas, Local Union 213, I. B. E. W., has been called upon to pay its last tribute to Brother C. Chesney, who was drowned Friday, April 18, 1919, in Hatzic Lake, B. C., those Brothers who knew him know that the Brotherhood has sustained a severe loss; therefore, be it

Resolved, That we, his fellow-workers of Local Union 213, extend our deepest sympathy to his wife and family in the hour of their bereavement; and be it further

Resolved, That we drape our charter for a period of thirty days in respect of his memory, and that a copy of these resolutions be sent to his widow, and that a copy be spread on the minutes, and copy sent to our Journal for publication.

D. W. McDougall, L. W. Marlow,

John McBride,

Committee.

BROTHER HORACE E. STARK.

Whereas, It has pleased our Almighty God in His divine providence to call from his labors our esteemed Brother Horace E. Stark, who met his death by a fall in March, 1919; and

Whereas, The intimate relationship long held by our deceased Brother with the members of this Union, N. 470, having held among other offices that of recording secretary, render it fitting that we should place on our records our appreciation of his services as an officer and as a man of ability, and a credit to his craft; therefore be it

Resolved, That we, the members of Local Union No. 470 of Haverhill, do hereby extend our deepest and heartfelt sympathy to his family and friends in this, their hour of grief; and be it further

Resolved, That as a mark of respect and sorrow the charter of Local Union No. 470, I. B. E. W., be draped in mourning for a period of thirty days, and a copy of these resolutions be sent to his family, a copy be spread on the records of this Union, and a copy be sent to the official journal for publication.

Robert E. McKay, Rec. Sec. Local No. 470, I. B. E. W., Haverhill, Mass.

BROTHER GILBERT MILLER.

Whereas, By an untimely accident, our Heavenly Father in his infinite wisdom has called from our midst, our esteemed Brother Gilbert Miller, and

Resolved, That we, the members of Local 258, I. B. E. W. extend their most sincere regret and sympathy to the bereaved widow and family, and

Resolved, That our charter be draped for a period of thirty days, also a copy of these resolutions be sent to the family and a copy sent to the Electrical Worker for publication.

Fred J. Bayne, Press Secretary.

BROTHER FRED PAXON PROCTOR.

Whereas, It has pleased our Heavenly Father to call from our midst our worthy president and esteemed brother, Fred Paxon Proctor; therefore be it

Resolved, That we, the members of L. U. No. 855, I. B. E. W. of Muncie, Indiana, express to our late brother's family, our deepest sympathy and condolences in this, their hour of grief; and be it further

Resolved, That our charter be draped for a period of thirty days, a copy of these resolutions sent to our official Journal for publication, and also to the bereaved family, and that one copy be inserted in a local daily paper, and one copy be inserted in the minutes of this local, and a copy to be spread upon our records.

W. B. Sharp, Vice-President.

R. Bloxham, 1st Trustee.

J. R. Hatfield, F. S. and Treasurer.

BROTHER HARRY FAUTCH.

Whereas, The great Creator of the Universe in His Almighty power and infinite wisdom has deemed it necessary and just to remove from our midst and into His presence our beloved brother Harry Fautch, so be it

Resolved, That we, the members of L. U. No. 2, I. B. E. W., here assembled, express our heartfelt sympathy to his beloved family and relatives in this their hour of grief. May eternal light and rest be with him; be it further

Resolved, That our charter be draped for a period of thirty days and a copy of these resolutions be sent to the bereaved family, a copy to the Electrical Workers' Journal and a copy be spread on our minutes.

Fraternally,
Local Union No. 2, International Brotherhood of Electrical Workers.

BROTHER H. A. JONES.

Whereas, Local Union 213, I. B. E. W., has been called upon to pay its last tribute to Brother H. A. Jones, who was electrocuted Sunday, March 30, 1919, at Northport, Washington. Those who knew Casey (as he was known to the Brothers on the coast) know that the Brotherhood has sustained a severe loss; therefore be it

Resolved, That we, his fellow workers of local Union 213, extend our sympathy to his wife and family in the hour of their bereavement; and be it further

Resolved, That we drape our charter for a period of thirty days in respect to his memory, and that a copy be spread on the minutes, and a copy sent to our Journal for publication.

D. W. McDougall,
John McBride,
L. W. Marlow,
Committee.

BROTHER HARRY F. DELANEY.

Whereas, It has pleased Almighty God in His infinite wisdom to call from this life our respected friend and brother, Harry F. Delaney;

Whereas, We mourn the loss of one whom the members of Local Union No. 588 held in high esteem for his sterling character and qualities as a true and loyal member of this Union, therefore be it

Resolved, That we, as a Union, in brotherly love pay tribute to his memory by expressing our sorrow at his loss, and extend to his wife and also his mother our deepest sympathy in their hour of bereavement; and be it further

Resolved, That a copy of these resolutions be spread on the minutes of our local, a copy sent to the bereaved wife and also to the bereaved mother, a copy to our official Journal for publication, and that our charter be draped for a period of thirty days.

Silent is thy voice in peaceful slumber;

May thy soul be of the heavenly numbers.

Jos. Hurley,
Jos. Richards,
John S. Moss,
Committee.

BROTHER CHARLES FELTZ.

Whereas, Almighty God in His infinite wisdom has deemed it best to remove from this earth our esteemed and beloved Brother Charles Feltz, therefore be it

Resolved, That we, the members of L. U. No. 830 of the I. B. E. W., tender our heartfelt sympathy to the beloved wife and family.

Alfred E. Kahn, Recording Secretary, Joliet, Ill.

BROTHER JOHN E. TERWILLIGER.

Whereas, Local Union No. 133, I. B. E. W. has been called to pay its last tribute to the memory of our esteemed Brother John E. Terwilliger, who was the first member of this local to lose his life in the service of his country; therefore be it

Resolved, That we, as members of Local No. 133, extend our sincere sympathy to his mother and father in their hour of grief; and be it further

Resolved, That our charter be draped in mourning for a period of thirty days, and a copy of these resolutions be sent to his mother and father, one to the Electrical Worker and also one spread on the minutes of our local.

Thos. E. Hodge,
John Lee,
J. Heinig,
Committee.

BROTHER J. S. MARSH.

Whereas, Local No. 61, I. B. E. W., of Los Angeles, has been called upon to pay its last tribute of respect to the memory of one of its most worthy members, Brother J. S. Marsh, of twenty-four years good standing, who passed away April 5, 1919.

Whereas, Brother Marsh, harkening to the Divine command, has gone to that land from whose bourne no traveler returns. His many noble qualities, his great unselfish character, his kindly, generous, buoyant spirit, his light heart and deep affection will ever remain fresh in the memory of those who knew him, and

Whereas, We recognize that Local No. 61 has lost an esteemed and worthy member, the country a good and loyal citizen, the home a devoted and faithful husband and father; therefore be it

Resolved, That the members of Local No. 61 extend their deepest sympathy to the devoted wife who so patiently cared for him during his long illness, his manly son and many friends in their hour of grief; and, be it further

Resolved, That our charter be draped for a period of sixty days and that a copy of these resolutions be sent to his bereaved family, also to the Electrical Workers' Journal, and a page be spread upon the minutes of our local.

W. A. Peasley,
J. H. Brener,
J. C. Tobin, Committee.

BROTHER PAUL JORSHKEY.

Whereas, It has been the will of the Almighty God in His most infinite wisdom to call from this world in the prime of his life our esteemed Brother Paul Jorshkey; and

Whereas, In his untimely call, we recognize and submit to His will, still we mourn the loss of one who in life was a true friend, a loyal union man, and a workman, who was a credit to the craft; be it therefore

Resolved, That we the members of L. U. 434, I. B. E. W., extend to the bereaved family of our late brother, our heartfelt sympathy; and be it further

Resolved, That our charter be draped for a period of thirty days in due respect to his memory, and that a copy of these resolutions be spread on the minutes, a copy sent to his sorrowing family, and a copy sent to the International Office for publication in the Official Journal.

J. C. McCunniff, Press Secy.

NOTICES.

Owing to difficulty in our jurisdiction, it is necessary to place in effect Section 8, Article 14, of the Constitution.

(Signed) G. W. Cook,
Robert Stanley,
D. B. Hallinger,
Roy Averton,
E. C. Bennett.
Executive Board, Local Union No. 55,
Des Moines, Iowa.

If this should come to the attention of Brother Ed Shephard or anyone knowing his present address, kindly communicate with Casey Diviney, Sheffield, Alabama, in regard to an important business matter.

Fraternally yours,
Casey Diviney F. S.

Anyone knowing the whereabouts of F. A. Bennerscheidt, formerly of Natchez, Miss. and Chicago, Ill., will kindly notify this office.

This is to advise you that, owing to the refusal of the Woodil Hulse Co., Electric Contractors and Manufacturers of this city, to comply with the By-Laws and working rules of Local Union No. 83, Local Union No. 83 has been compelled to declare this Company and the products of this Company unfair. It will interest you to know that this Company manufactures Metal Switch Boxes and Switch Boards under the name of Safety Electric Co.

Please acknowledge the action taken by your local.

L. U. No. 83, I. B. E. W.
Per Lee Lassner.

Owing to the difficulty in our jurisdiction and having the required number of men unemployed we have found it necessary to place in force Article 14, Section 8, of the Constitution and General Rules.

Fraternally yours,

H. W. Shivers, Rec. Sec. Local 1104,
10 Ashland St., Malden, Mass.

Local 392 of Troy, N. Y., is at present on strike, against the Electrical Contractors of that city, and have served notice that they will take advantage of Article 14, Section 8. Traveling cards will not be accepted for a period of thirty days.

Inasmuch as we, Local 809, have used every effort in trying to organize Signal Maintainers and Linemen on the Chicago Great Western R. R. we take this opportunity in informing each and every Local, that should any of their men present themselves at any Local for membership, without any card, demand the reason why they have not, and handle accordingly.

(Signed) R. E. Dawley, F. S.

Anyone knowing the whereabouts of William Hildebrandt, about 61 years of age, who was last heard of in 1906, at which time he was employed as electrician for the Otis Elevated Works, Yonkers, N. Y., will kindly notify this office.

Strike was called against The Northern California Power Company on May 1st. All members are requested to avoid this locality until settlement is reached.

(Signed) R. P. Meigs, R. S.

Anyone knowing the whereabouts of Harry M. Warner, better known as "three-fingered Warner," please communicate with Mrs. Harry M. Warner, 16 Dix St., Worcester, Mass.

This Local, No. 153, of South Bend, Ind., do hereby declare Article 14, Section 8, to be in effect this day, April 15, 1919, and ask that this be published in the Electrical Workers' Magazine as soon as possible. We further ask that the surrounding Locals be notified to this effect through the International office at once.

Fraternally yours,

B. J. Brehmer, Rec. Sec.

A UNION BIT FOR UNION MEN.

The W. A. Ives Mfg. Co., Wallingford, Conn., have for several years been operating a strictly union shop and their product, the "Mephisto" Bit, is the acknowledged superior of any tool of like character on the market and, in addition to this, all of the work performed thereon is done under strictly union conditions.

In addition to the fact that union men should give preference to union made goods, the following reasons should be sufficient for members of Trade Unions who have need of tools of such character to induce them to have a complete set in their possession:

1. The elimination of friction, so that the bit will not clog or bind.
2. Boring holes is precisely like whittling and two knife blades are never used in whittling; therefore, it is not necessary, and, in fact, an objection that an auger bit should have two lifting knives. Ours has one.
3. The side spur loosens the wood. Right under a blunt lip opposite the only knife blade lifts the chip, thereby not making it necessary to push, for you get a clean spiral cut.
4. The above makes it possible to get a regular thread, not like other auger bits manufactured, some using a V thread, but we use a U thread, or more, lag screw, and the bottom thread absolutely connects with

the floor lip that lifts the chip. It would not be possible to get such a thread if we had two knives lifting the chips. This particular screw will not fill, but constantly pull.

5. Any one can sharpen the "Mephisto" Bit and keep it in perfect repair.

6. One "Mephisto" Bit will outlast three of any other make.

The W. A. Ives Mfg Co., Wallingford, Conn., will be glad to forward catalogue on request and are willing to go to any reasonable extent in order to make it easy for Trade Unionists to have the best tools of this kind on the market in their possession. "A word to the wise is sufficient." It is up to you to be a booster.

CARD OF THANKS.

To my friends and Brothers for their many kind and sympathetic words and acts during the last illness and at the death of my beloved wife: Let me assure you that mere words fail me in expressing my gratitude for your tender and thoughtful kindnesses to her, your sincere and consoling expressions of sympathy I take as the measure of true friendship and Brotherly Love. It is most consoling to feel that a life has not been lived in vain, whose passing away calls forth these expressions of loss, and to feel there are so many kind friends to whom those left behind can turn for sympathy and consolation in their bereavement. Sincerely, M. L. Durkin.

Around the Circuit.

The Building Trades strike involving our Ottawa, Canada, local has been satisfactorily settled. Eight hour work day has been established, five and one-half days per week, union shop for all trades. Electrical workers obtained 10 per cent increase in wages. Organizer John Noble assisted the Local Union.

Local Union No. 329 of Shreveport, La., assisted by Organizer Goble, has reached a settlement with the Public Service Company of that city. Substantial increases in wages and improved working conditions were obtained. The following wage schedule was adopted:

Journeyman Linemen, former scale, \$4.80 per day; present scale, \$5.80 per day.

Arc Lamp Trimmer (white linemen), present scale, \$5.80 per day.

Meter Foremen, former scale, \$135.00 per mo.; present scale, \$147.50 per mo.

Meter Testers, former scale, \$90.00 per mo.; present scale \$107.50 per mon.

Foreman Drop Wagon, former scale, \$110.00 per mon.; present scale \$122.50 per mo.

Journeyman Drop Wagon, former scale, \$90.00 per mo.; present scale \$102.50 per mo.

Night Trouble Man, former scale, \$110.00 per mo.; present scale, \$122.50 per mo.

Commercial Utility Man, former scale, \$90.00 per mo.; present scale, \$102.50 per mo.

Local 358, Perth Amboy, N. J., have signed a new agreement with their employers, providing a wage scale of \$1.00 per hour for Journeyman Foremen, 87½¢ per hour Journeyman Wiremen, 43½¢ per hour Helper Wiremen. Improved working conditions are embodied in the new agreement. Wage scale for Journeyman Cable splicers \$1.00 per hour, Journeyman linemen 87½¢ per hour, linemen Foremen \$1.00. Union shop conditions.

Assisted by Organizer Noble, Local Union 105, Hamilton, Ontario, Canada, has reached settlement with Light & Power Co., that city, which provides an increase of wages of 17½ cents per hour for patrol linemen, 12½ cents per hour for linemen working in ordinary crews, 10 cents per hour for trolley men, \$20.00 a month for operators. Also, provision is made for three additional operators, who are permitted the six-day work week. All employees to receive one week's vacation, with pay, annually.

Assisted by Organizer Broach, Local No. 276, of Superior, Wis., has reached a new

agreement with the contractors of Superior, which provides for wage increase of 10 cents per hour and greatly improved working conditions.

Local 439 of Akron, Ohio, have completed a new agreement with the Northern Ohio Traction and Light Company, providing for increased wages and improved working conditions.

Wage scale, line department:

Foreman, \$170 per month.

Journeyman linemen, \$5.85 per day.

Journeyman cable splicers, \$6.50 per day.

Troublemakers, \$150 per month.

Ratio of apprentices, one to four journeymen.

Local assisted by Organizer Cleary.

Local Union No. 504, Meadville, Pa., has reached agreement with Northwestern Pennsylvania Railway and Northwestern Electric Service Companies. Increases in wages and improved working conditions were attained.

Foremen shall receive \$145 per month.

Journeyman, powerhouse and sub-station construction men shall receive \$135 per month.

Journeyman linemen shall receive 60 cents per hour.

Switchboard operators and dynamo tenders shall receive \$100 per month.

Line inspectors shall receive \$100 per month.

Local 125, assisted by Organizer Von Schrittz, have negotiated a new agreement with the Northwestern Electric Company. The following wage scale is provided for the electrical employees of above mentioned concern:

Journeyman cable splicers, \$7.30 per day.

Apprentice cable splicers, \$6.10 per day.

Foremen, \$6.70 per day.

Journeyman linemen and wiremen, \$6.10 per day.

Troublemakers, \$160 per month.

Patrolmen, \$138 per month.

Relief operators, \$5.75 per day.

Switchboard operators, \$131 per month.

Foremen meter department, \$6.70 per day.

Journeyman metermen, \$6.10 per day.

The Local Unions at Orange, Texas, and Pascagoula, Miss., have reached settlement with the International Ship Building Co., which provides greatly improved working conditions and increased wage scale; also recognition of the electricians' jurisdictional rights.

EDITORIAL

ANSWER TO**YAKIMA CIRCULAR.**

The International Office has received communications from several local unions protesting against the deferring of the telephone strike until July 1. The locals protesting no doubt, have been influenced to do so as a result of a circular letter sent out by Local Union 523, Yakima, Wash. We consider inasmuch as the letter from the Yakima local union is misleading, that a reply explaining the situation will assist in clearing up any misunderstandings formed by local unions or members thereof concerning the attitude of this office relative to the calling of the telephone strike.

The letter issued by Local Union 523 of Yakima, Wash., infers that this office has set the date of July 1 as the date of calling the strike. Just how the local union worked its imagination in order to arrive at the conclusion that July 1 was the date set for the strike we do not know. The fact of the matter is that no definite date has been set as the circumstances connected with the entire situation would not permit of deciding upon any definite date up to this time. The letter sent out also advises all local unions to demand of the International Office that the strike be called not later than May 15th. It further advises the locals that if the I. O. does not comply with the demands of said local unions that the locals take concerted action themselves in the matter on June 1.

The recommendations of Local 523, if carried out by the local unions, would mean the complete destruction of the first definite and concerted action of the Brotherhood to bring the telephone interests as a national proposition to a working understanding along the lines of collective bargaining. No one is more conscious of this fact than the telephone interests themselves. Such interests are doing everything possible to defeat the plan developed by the International Organization, and which was primarily initiated at the Atlantic City Convention in September, 1917. The Telephone Companies are fully aware that if spasmodic, isolated, local and sectional strikes can be brought about, all chances of bringing them to terms have been defeated. Their secret agents in the various local unions have worked tirelessly night and day to create such a situation. Local Union 523 either intentionally or unintentionally is rendering valuable assistance to the telephone companies through their urging and recommending a policy entirely counter to the policy submitted to referendum vote of the Brotherhood.

The vote in favor of a strike and providing means of financing same has carried by an overwhelming majority. The membership of the Brotherhood have instructed the officers to call a strike if all other methods of adjustment fail. By their vote they have also provided adequate finances to finance the difficulty if same becomes necessary, and we take this opportunity of assuring the membership that their expressed wishes will be followed both in letter and spirit by the International office. We also desire to advise all members that as their representatives, we are conscious of the fact that our first duty is to obtain proper adjustment of all grievances and bring about improved wages and working conditions without unnecessary sacrifice to the membership through loss of wages or the levying of assessments, and all efforts to accomplish this will be resorted to before the strike action is placed in effect. We are not going to permit ourselves to be influenced by the advice of those who may feel we are moving too slow in the

matter; neither do we intend to defer the strike until July 1. It is the intention, however, of the International Organization to present the situation before the highest authority that it is possible to reach before ordering a general suspension of work. If such authority denies the relief we are entitled to, the strike machinery will immediately be placed in operation and same will be carried through to a successful conclusion, as no strike that is properly financed can help but be a success.

If we were managing the telephone interests, we are frank to admit we would endeavor to do the same thing that the telephone companies are now trying to do, and that is create dissension among our membership, develop distrust for the International officers who are responsible for the management of the situation.

We have too much confidence in the judgment of our membership to believe that any substantial number will be influenced by the efforts of the telephone agents whether they represent the individual efforts of a member or of a local union or group of locals.

In our judgment, for once in the history of the Brotherhood, a definite, sane, practical policy, one which bids fair to be successful, has been developed and directed against the telephone companies. Its success or defeat depends entirely upon the membership of the organization. If they permit themselves to be stampeded into a hasty strike, defeat is inevitable. If they retain their patience for a brief period of time and await the general strike call authorized by referendum vote it is our firm belief success is assured. There is no element of doubt but that the calm, patient manner in which we have handled the telephone situation has won for us that great and necessary support for the success of industrial difficulties, namely, public opinion. We, therefore, ask each local union and member to accept this as our answer to the circular of Local 523, and an answer and explanation to the individual protests that have been filed. We are fully conscious of our duties and responsibilities and will discharge same to the best of our ability, in a manner that will best serve the interests of those we represent.

PER CAPITA TAX INCREASE.

The membership, by majority of over twelve thousand, have approved the constitutional amendment to increase the per capita tax to the International Organization. This is the largest majority ever given any proposition by referendum vote. Perhaps to some it may seem to be a surprising vote, when consideration is given to the fact that it is human nature to be unwilling to vote favorably for increased taxation. However, the vote is not a surprise to the thinking members of the Brotherhood, who have long realized that the revenue to the International Organization was insufficient to meet our needs and requirements. Neither was the result a surprise to those delegated to represent the membership, and who are in a position to know and understand their views and who are familiar with their needs and desires.

The average electrical worker is proud of his vocation, interested in his organization, willing to unselfishly assist in promoting its progress, thoughtful of its future, and desirous of extending the scope and influence of the Organization, that is responsible for the wages and working conditions enjoyed by those following the electrical trade.

The officers of the Brotherhood gave their unqualified approval to the proposal to increase per capita tax, fully conscious of the fact that to do so meant the strengthening of the Brotherhood, extension of its usefulness, elevation of its prestige, and the establishment of a sound condition of our finances. No institution can hope for success, unless founded upon a sound financial basis, provided with sufficient revenue to carry on its affairs.

Naturally, we feel gratified that a proposition that received our endorse-

ment met with such a reception of approval from the general membership. Our appreciation is extended to those who supported the amendment and we feel that those who fail to give their support did so through a lack of understanding of the situation, rather than influenced by the desire not to strengthen the Organization.

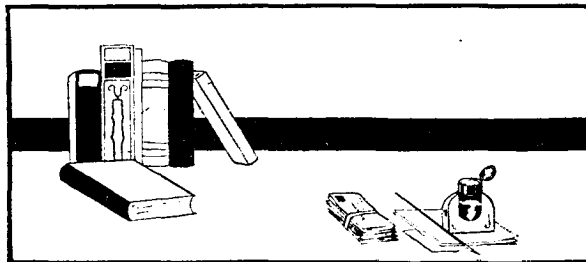

The increased revenue means nothing to the officers of the Brotherhood, other than to provide them with ways and means of more efficiently carrying on the duties delegated to them.

SCIENTISTS AND EDUCATORS ORGANIZE.

The advantages of organization and the necessity for collective action to obtain economic rights and industrial justice is again demonstrated by the formation of an organization affiliated with the American Federation of Labor composed of over five hundred scientists and technologists employed by the Federal government. The personnel of this new union is made up entirely of professional men such as bacteriologists, chemists, physicists, pathologists, botanists, etc., all professions requiring long years of study and training, whose vocations have through tireless research and experiments produced incalculable benefits to humanity for compensation in many instances that the average mechanics would decline to consider.

Another new organization composed of university and college professors has received a charter from the A. F. of L. These educators also are seeking relief from underpay and find organization necessary to obtain it.

The labor movement welcomes to membership all classes of producers and will cooperate with the professors, teachers and scientists to obtain industrial justice. Organized labor feels some pardonable pride over the fact that the manual toilers furnished a lesson in economics that high-class mental workers find practicable.

**To All Local Unions Who Have Members
Employed Upon The Southern Pa-
cific System Leased and
Operated Lines.**

Greeting:

At a convention held in Los Angeles, California, March 10th, 1919 to March 15th, inclusive, there was organized a System Federation of the following organizations, namely: Electrical Workers, Boilermakers, Blacksmiths, Machinists, Sheet Metal Workers, Railway Carmen, employed upon Southern Pacific Systems.

The Electrical Workers were represented by eight Local Unions and have organized a System Council, drafted By-Laws and are going ahead and organize the Electrical Workers upon the Southern Pacific Systems one hundred per cent.

We find that there were several Local Unions who had members employed by the Southern Pacific that were unable to send delegates to the System Federation Convention, so we take this way of informing those Locals that are eligible to become affiliated with the System Council, that all that is necessary for Local Unions to do is to make written application to the Secretary-Treasurer of the Council for affiliation, who will in turn forward By-Laws and all necessary information to those de-

siring to become affiliated with the Council.

Brother Ray Focht has been elected Business Agent for the System Council and expects to take up his duties about July the 1st, but in the meantime, it is the duty of the Local Unions to get busy and affiliate themselves with the Council so that we can band ourselves together and demand the rights that belong to us. Electrical Work for Electrical Workers.

If you have Electrical Workers in your vicinity that are in other organizations, which we know there is any amount, kindly forward information to the Chairman and Business Agent for action. We want to assure you that the Six Crafts have agreed that there will be no jurisdiction disputes to keep down the good work of the Organization.

We are taking our mailing list from the Worker and may send some of our letters to the wrong Local Unions. In case we do, we ask that you refer same to Local Unions having members employed upon the Southern Pacific Systems.

Yours fraternally,

L. E. Hardesty,

Secretary-Treasurer.

Correspondence

L. U. NO. 2, ST. LOUIS, MO.

Editor:

As it has been some time since No. 2 has had any mention in the Worker I will try and send just a few lines.

Things have been moving along so fast in St. Louis that we have really had no time for anything else.

Talk about new members. No. 2 is taking them in so fast that our Business Agent can not keep enough application blanks on hand.

Some system and action in this town when it comes to settling difficulties, as Brother Jack DeVoe was sent to confer with Local No. 1 at 8:55 p. m., reporting back to the hall at 9:30, everything fine and dandy. Some "kid", that Jack.

Talk about class, well we have it here, and some one from the Grand office must have known it, for when they started to organize the Telephone Operators, who should they put at the head? Well, nobody but our good looking chief, Brother Jennings; but this was not enough, Brother Jennings thought he also must have a man also good looking, so there was nothing to do but take Brother Ed. Arnold, who from all reports sure made a hit, judging from the way applications came in from his district.

I would also be pleased to know or hear of any Brother who was with Brother Knox when he received his wound stripe, for Brothers of No. 2 can not find out where the battle grounds were or how many of the enemy were present. Some of us have a slight suspicion that Brother Creedon knows, but won't tell.

Most all the Brothers that were away are coming home and expect within the next month all of them will be here.

I regret to announce the death of Brother Harry Fautch, who was knocked from a tower wagon, resulting in his death four days later.

Brother Bahofner received some painful injuries and broken bones while at work on Free Bridge.

Any of the Brothers who have any idea of dying, make St. Louis, if possible, as we are proud of our burial cremony donated by Brother Wade and delivered in a most impressive manner by our President (Rev.) Dan Creedon.

Bill Howell, Rec. Sec., Local No. 2.

L. U. NO. 4, NEW ORLEANS, LA.

Editor:

At our last meeting we had a very good attendance and No. 4 voted in favor of the amendments to constitution by 38 for and 2 against. On the ballot of supporting the telephone operators, linemen and all other locals who have men employed by the telephone and telegraph companies should they go out on a strike, we had 30 votes for and none against, which means we will assess ourselves to finance them. The joint convention committee of the different locals gave a ball on April 26 for the benefit of their convention fund and it was a success. The convention committee is working hard to get the funds to make our convention in September a success, but we are handicapped by numerous other affairs where the people are after money for charitable institutions, war sufferers, widows and orphans of the war-torn countries, and the

Victory loan. So you can see what we are up against. Our worthy president, John King, had the misfortune to have some of the bones in his leg fractured and is not able to leave his house; all he can do is to gaze out of his front window at the passing crowds. His mule started off while he was on the hub of his wagon and the wheels passed over his leg. He is cheerful and is doing nicely.

New Orleans is getting to be in the 100 per cent column as we have four locals here now and are taking new members in at every meeting. The power-house men got a good increase in wages since they have become members of the I. B. E. W. Just goes to show what organization and unionism can do for those who use their brains and have wits enough to join. Now, brothers, I have a request to make of each and every local in the brotherhood, as follows: To have your press secretaries put in the July Worker the scale of wages and hours and condition of the workers of the different locals of the I. B. E. W. If not the July issue of the Journal, then some other issue. The reason of my requesting this is that when a local goes to the employers for a new wage scale and conditions, the employers want them to wait until they (the employers) can write to the different companies for the scale of wages, etc. By us all having our wage scale and conditions printed in one certain issue of our Journal we don't have to go any further than to just get that certain issue of our Journal and present same to the employers. Otherwise we either have to write the G. O. or the different locals, which takes up a lot of time and worry, which will not be necessary if you will all follow out my suggestion as outlined.

There is no building going on at all here at present, as the prices of building material are too high. The contractors and builders are trying to "pass the buck" to labor. Our mayor has appointed a committee to go into the details and find out who is profiteering. If a just and honest report is returned it will be found that poor down-trodden and ground-down labor has naught to do with it. It looks funny and sounds sad to hear of the dealers in building material making a net profit of 80 per cent trying to blame labor for profiteering. Oh, well, they have to blame it on some one to shield themselves.

After a long fight in the courts, the state supreme court yesterday handed down a decision in favor of the New Orleans Railways, Light & Power Co., granting them the right to raise their car fare from 5 to 6 cents and their gas rates from \$1.10 per thousand feet to \$1.40 per thousand feet and also their electric rates. This was no more than right because the railways company has had to meet the high cost of everything the same as we have. The commission council granted them the right to raise their rates, and it was some of New Orleans own labor leaders that fought the raise through the courts and which they had no right to do, considering that the railways company had raised all of its employees' wages, which increased the railways company's payrolls to millions of dollars annually.

Brother Wade of No. 83, there must be a terrible state of affairs in your local judging by your letter in the April Worker. Why do the officers stand for such a state

of affairs as seem to exist? I am sure the constitution and your by-laws are enough to cover these slackers. If not, change your by-laws so that they will cover them and bring them to their senses. I am also in favor of a universal card system making a man's card good no matter in what local he may deposit it, and not have him put up any more initiation fee than his card calls for from his own local. This should be threshed out at our next convention and thoroughly investigated, not whitewashed. I am also in favor of getting rid of all the undesirables in the I. B. E. W., such as those politicians, officeholders and the like who do not work at the trade but who hold membership cards in their respective locals, not to benefit the I. B. E. W., but for their own greedy and selfish desires and ends. By all means get rid of them as they are a menace to our brotherhood and make us the laughing-stock of creation. We want to build up, not tear down, and we can't build up unless we get rid of the dead-weights that hold us down. The men who do the work are the ones who are entitled to whatever glory is forthcoming. Any member who don't subscribe for and read our Journal is not a member (read your constitution) and should not be classed as a good member, as he is not following out the rules of our constitution.

I am surprised at the small number of letters in the April Worker. What's the matter with the 900 or more press secretaries? Wake up, Brothers and Sisters and let's hear from you one and all through the Worker, and if you have anything to say, say it, and if you feel so disposed to criticize the other fellow's letter, do so. The more the merrier, as it will start our Journal on the boom. Keep us informed as to what your local is doing. If good, say so, and if not run to please the members of your local, say so. I glory in the press secretaries who write with the courage of their convictions and will not down. I wrote in the February issue about getting a home for aged and infirm members of their families and asked to hear from the Brotherhood through the Worker as to their opinions on same. To date, Brother Shorty Wade of No. 83 is the only one who has seemed to take any interest in the proposition. Why does something which is for all of our benefit interest two or three of us and not the rest? Do you all expect to live and work forever? I know from experience that very few of us are able to lay aside a competence for the time that is coming when we will be compelled to lay down our tools, unable to keep step any longer with the daily grind. It will be nice to know then that the I. B. E. W. has a home waiting for you and yours, where all you have to do is pack yourself and baggage and stay there in happiness and contentment without a care or worry until the great Reaper calls on you. Brothers, think this matter over and give it your serious thought and consideration, and then be prepared to act. Brother Wade's scheme of financing such a home has my approval as I have none. Neither have I heard of any that's better. Read his letter and see what he writes that one cent a day can do. If you feel so disposed to raise the ante up to more, that's up to you. Should you all vote to build this home it will be an everlasting monument for all time to come for the I. B. E. W., and the beauty of it is that as soon as it's built it can be paid for in cash from whatever assessment is levied on us. All together, now! All for one and one for all.

I don't know what is going on in the trade as I have been laid up for some time with a severe nervous spell from the flu and have not been around among the boys much. I do know that when the foundation company and the canal connecting the river with the lake is finished that thousands of men will lose out.

I approve of the article in the April Worker by Grant Hamilton criticizing congress for its failure to appropriate sufficient funds for the Department of Labor to keep that department a going concern. Brothers, read that article on page 435 and then act, as it is a matter that concerns us all and strikes at our very vitals. Any man who reads it and then can say that it does not interest him has not the welfare of himself or his fellow workers at heart. What we all want to do is to act at once by sending your congressmen and senators petitions with thousands of signature protesting against their unfair methods. We don't need any red flags, bombs or soapbox orators of the I. W. W. brand to get what we want. The honest laboring man has an easier method. He can go to the polls on election day and elect men to the U. S. congress and senate who will look after his interests and keep him from being down-trodden. Bolshevism we do not want, and one good and easy way for congress to stop it is to rigidly enforce our immigration laws and shut out of the country the dangerous human refuse that Europe is always eager to dump on our shores. These cattle are only half-civilized and their only aim is to overthrow civilization by fair or foul means. They are a menace to this country and don't spend their earnings here but board and save enough to go back to where they came from and to h— with the U. S., the country that they had their freedom in.

Mr. Jno. H. Kirby, an enemy to organized labor, has been in and out of New Orleans, The last time he was here he let out a torrent of abuse against the A. F. of L. for their impudence in organizing the saw-mill labor of the south. It was a crime, in his estimation. He and his associates are the ones who want the bar let down to admit the cheap laborer of all countries to compete with free men. He says unions run the country at present, but makes no mention of profiteers like himself running the U. S. Unionism has no apologies to make to Mr. Jno. H. Kirby or any other of his kind. Let him and the other profiteers of the laboring man's necessities of life come down the ladder and bring the high cost of living down with them before they begin their throwing of stones. Can Mr. Kirby enlighten us as to why the price of labor stays up when sawmill labor is very cheap and the working hours are anywhere from twelve to eighteen hours per day. But someone has to be blamed by the profiteers and naturally by them blaming labor is the easiest way out of it for them. Take the fair-minded employer: He has never anything but praise for organized labor, because we are scrupulous enough to hold signed contracts sacred and binding; but the unscrupulous employer is always kicking and begrudges a workman what he has to pay him. He is the same in business when another firm outbids him on a contract. I guess some of the employers of the American Manufacturers association are ready to lay the bomb outrages at Labor's door. I thank God that the A. F. of L. is not connected with the Insane Wreckers of the World (I. W. W.). No, we are not anarchists or bombers; neither do we associate with such bums, tramps and red flaggers. We are a peaceable set of men. Our labor holiday is the first Monday in September and we conduct ourselves as law-abiding citizens on that day and we give no cause to the authorities for them to worry over, and we don't give any displays like the reds attempted to do on May 1 in their attempt to pull down governments. Thank God, they were stoppel by red-blooded citizens of whom this country has a plenty. Who imports these undesirable from foreign shores? Surely not the A. F. of L. But to listen to some of those silver tongued orators and enemies of labor they would have you believe so. Shapere said "Don't believe all you hear," and

he knew what he was doing when he wrote that sentence.

We have had several Brothers deposit their cards in No. 4, while others passed through New Orleans on their way to other parts after the wherewithal to make life worth the living. Our best wishes go with them. Come on Press Secretaries of 130, 823, 867 and 882—wake up and put New Orleans on the map through our Journal. Your letters will be read eagerly by all in the United States, Canada and then some. With No. 4's best wishes to the Brotherhood and the success of same, I am

Ed. M. Smith, Press Secy. No. 4.

L. U. NO. 20, NEW YORK, N. Y.

Editor:

A few lines from Local No. 20 at this time I think will be appreciated, especially by the Brothers that might be thinking of coming this way in the hope of landing a job.

I therefore take this means of notifying all brothers that at the present time local 20 has about 40 per cent of her members walking the streets and the prospects are not any too bright. So would request all brothers before coming this way to get in touch with B. A., who will advise you of condition and probably save you time and car fare.

Now for a few words concerning the Brothers that are returning from over there after doing their bit, and it is a rare meeting night that we do not have at least one of the brothers with us ready to put the harness on and pick up things where they left off and it gives me great pleasure to see such Brothers as Coheleach, Brothers Wild and Beattie with us again.

Trusting that after the referendum vote that is before the brotherhood at the present time is completed that the G. O. can see its way clear to assign an organizer to this territory for organizing purposes as this is a big field and could stand a lot of it. Local 20 at their last regular meeting passed a resolution to request an organizer for this local and also made a special request that organizer Broach be sent if possible.

With best wishes to all the brotherhood, I am

Fraternally,

H. Haggstrom, P. S.

L. U. NO. 21, PHILADELPHIA, PA.

Editor:

Well, as I am responsible for a letter to the Worker every month, so here it goes for this on. Not knowing what was going on for over the month, as I just got over the "flu"; and, believe me, that is some disease. It would be alright for a "scab" to get it, because they are no good anyhow in this world of the living, and the devil don't want them in hell—so they might as well get the "flu".

I was instructed to write this to the Worker: That anybody knowing the S. E. Webb, Card No. 190992, alias Cap. Webb, well known in the line business, as this ex-Brother is crooked, as he owes quite a bit of change around Philadelphia, he has been trying to make a home for one week at No. 21's expense, and beat it without notifying Local No. 21 of same.

The traveling Brothers are entitled to two nights' flat at No. 21's expense; thereafter at their own expense. The Local also stands good for any member that needs assistance, but he will have to pay back the same as soon as possible.

Work around here is a scarce article. We have quite a few Brothers out of work at the present time, so you traveling Brothers take notice that it will be hard to place any coming this way.

Our Business Agent has had conferences

with the Philadelphia Electric Co., which is pending. If we keep after them we may make it a good job yet. Then watch the nigger scabs go to h——. As ever,

Rube, P. S.

L. U. NO. 27, BALTIMORE, MD.

Editor:

A line to let you know L. U. 27 is still in the field, only wider awake than before, as everything was dusty. Business machinery running bad, so it was a get together general clean-up from top to bottom. It was 27's first clean-up in 27 years, but now everything is shining and open for new business. Our office was without any roof over it for many moons. Now, I must say, it is in a beautiful office, Room 25 Franklin building, Guilford avenue, Baltimore, Md.

The Engineers of L. U. 27 seen that the business end was running bad, so we installed a new wide awake Business Agent, J. V. Mullen, who is a minute man, and can be reached by 'phone, St. Paul 7920.

Then it was seen that the Financial Secretary, Treasurer and Recording Secretary all were getting old, and to make it look new it was given a clean shave—and what a change. Now everything looks bright and new. Of course some said it wasn't needed, but it was for the best. I must say we just won by a head; but if tried again could win by a mile. From now on there will be a clean sweep every once in a while. All of the officeholders are working shoulder to shoulder. Now as this is the first live one, you will hear from us soon again. Just give it a trial. O, what a success. Best of luck to all. Fraternally yours,

J. F. Peterson, Rec. Sec., L. U. 27.

L. U. NO. 45, BUFFALO, N. Y.

Editor:

I know this is a little late, but I am taking a chance.

Work is very scarce about here and where the Brothers are working they are receiving starvation wages. Old 45's pulse is getting very weak, and I think we will have to get the undertaker soon unless the Doctor gets here quick.

Our membership is falling off and no new ones coming in. None of the municipal linemen carry a card. The Bell won't stand for them and the general electric wood hicks are satisfied to starve and holler, but will not help to help themselves.

A lot of the old timers are leaving town or have already left. The Brothers that do belong average about one meeting a year, when we want to raise the dues or something like that, then they come around and whine and holler against such an outrage. Of course there is always the faithful few.

We have asked for an organizer several times, but have not been able to get one. Of course maybe our tight-wad members got us in wrong when they voted against raising the per capita.

Well Brothers, this is not a very cheerful letter, but believe me we do not feel cheerful, and if you hear that old 45 has severed out, let it be an example to you, that every member has got to hustle in order to keep an organization on its feet.

About six weeks ago, at a meeting I made a speel and told the Brothers I had lots of application blanks for them to use, and I must have passed out at least a hundred. I have still to see one of them come back filled out. I guess they used 'em alright for something else.

Well so long Brothers, if we live you will hear from us again.

Yours fraternally,

Robt. W. Zimmerman,
Ebenezer, N. Y.

L. U. NO. 60, SAN ANTONIO, TEXAS.

Editor:

I did not get a letter in the March Worker, and worse calamity, I did not get to read one, being laid up with a sprained back about the time our few copies were being handed out. So am like late comers at meetings, I don't know what is the question before the house. But I do know that I am not by any means the only member who did not get a March Worker. In Local 60, and in several hundred other locals throughout our jurisdiction are members who seldom see a Worker and this brings up the question, whose fault is it? Our own Brothers; we have only ourselves to blame. And it is not because we can't afford it, for of all the benefits we derive from our organization, this little Worker of ours is the most for the money of any I can name. I doubt if two bits pays for the paper on which your twelve issues are printed, and one issue is worth the money. So there you get a twelve hundred per cent return on your investment, which ought to satisfy any man except a war profiteer, and for them we hold no brief.

Section 4 of Article 21 of the Constitution, being a part of the law pertaining to the Official Journal, states that "ALL members of the I. B. E. W. SHALL subscribe for same". I have underlined the words "all" and "shall" to call attention to the fact that no members are excepted, and that it is not a matter of choice or personal preference. So right here, Brother International Secretary, is where you get a pot shot at all the delinquents. Just handle them as you do the ones who forget to pay their semi-annual assessment, and watch the subscriptions roll in.

The second paragraph of the section just referred to is as plain as the three balls in front of a new hock shop, and any Financial Secretary who can read that and not understand it would probably take his watch to a charity bazaar if he was in need of some quick money. The law is very clear on this subject of the Official Journal, Brothers, and it is the LAW. Get that into your noodle first of all, let it ferment around among the volts and amperes from now until next meeting night, then go up to the hall and, if you are sure you are not at fault in its enforcement, find out who is and start something. Keep it going until every member of your Local gets a Worker, either at his home address or at the hall, and then note the gradual improvement in morale. Any man who can read the editorials and letters every month and not be a better union man is certainly a dead one, and somebody ought to plant some ivy around his feet to hide the ruins.

And think what a journal we would have if all the press secretaries did their duty! —893 Local Unions listed in the February Worker, and 62 letters were published—93 per cent of the press secretaries failed to function in February. Awful silence, that! If silence gives consent, then 93 per cent of the locals are satisfied with things as they are, which is about the most peaceful condition this Brotherhood has been in for quite some time. Rip Van Winkle wasn't a press secretary, and therefore violated no obligation when he took his little nap; but we don't want union men and women pulling that brand of stuff on us, because things are happening all around us, and we want to know about it.

Work is not as plentiful here as we would like, but all members are employed at present so far as I know. A number of our members who were in the army are now out and at work again, and we hope to be able to place all of them as soon as they get discharged from the service.

Fraternally,

Otto Dean, Press Sec'y.

L. U. NO. 61, LOS ANGELES, CAL.

Editor:

A few lines may be of interest to some Brothers. We, as the Brothers know, who have been in this district have an uphill pull, merchants and manufacturers 100 per cent, and we are far below that, but are showing signs of life now. Just got the L. A. railway line foremen, linemen, electric switchmen, apprentices and helpers, (tower wagon) drivers, 100 per cent in our local. Business Agent now working on operators.

An oil company tried to get men to work for them for \$5.25 per day. Business Agent got in touch with the representative of said oil company, and not only got the scale (\$6.40), but hired the men through the B. A. A couple of men with little scruples went to the company's office and tried to hire after knowing the proposition, and were referred to B. A., but of course did not come back.

The Southern California Edison Co. has been declared fair, also Southern Sierra Co. some weeks ago, and we have been able to have the so-called blackball lifted on a number of our members. We have one trouble here, our members play the company office too much when looking for a job, but at that, B. A. is able to call on them and get an order for men.

Now Brothers, let's not forget the personal feeling towards one another, whether working members or officials of the organization, should be forgotten. One member of the organization started a scandal on another member and when called to task stated on the floor of his local it was a personal matter and should not be brought up.

I do and have always taken an interest in our Journal, and would like to see more correspondence from locals. I am

Fraternally yours,

I. A. Richardson,

Press Secretary, L. U. No. 61.

L. U. NO. 62, YOUNGSTOWN, OHIO.

Editor:

Just a few lines to let the Brothers know that Local Unions, 33 of Newcastle, Pa., 62 of Youngstown, Ohio, and 218 of Sharon, Pa., presented a joint agreement to the M. & S. Ry. & Light Co., to take effect the 1st of April, asking an increase from 65 cents per hour to 95 cents for journeymen linemen and same percent increase for other men affected by the agreement. Space will not permit to give outline of working conditions asked. The company, as usual, could not see any reason why they should grant the increase, and as a result we went out on strike. After being out for fourteen days an agreement was drawn up and executed, whereby the men returned to work at 80 cents per hour for journeymen linemen and the same per cent increase for other men affected by the agreement. The entire matter is to be subjected to arbitration before the Department of Labor, the increase to be effective until the award of the arbitration is made.

Much praise is to be given to Organizer H. H. Broach for the splendid and untiring manner in which he helped bring the difficulty to its present conclusion.

Fraternally yours,

E. Hughes, R. S., L. U. 62.

L. U. NO. 69, DALLAS, TEXAS.

Editor:

In absence of Press Secretary I will write a brief letter for publication.

Work in and around Dallas is at present very scarce owing to the general strike against the Texas Power & Light Co., but when the strike is settled there will be lots of work in North Texas. I will say that this strike has been on since March

11, 1919, and we can see no settlement in sight as yet. The company is absolutely refusing to hold a conference with the strike committee or any representative of the I. B. E. W., or with any committee who wish to talk about the strike. The officials told the Mayor of Dallas and Government Mediators Meyers and Woodman that they would not agree to arbitration by either the Local Arbitration Board or the War Labor Board. And as we see it the strike has developed into a long, hard fight, and will say it is on to stay until a satisfactory agreement is reached. There has been two "scabs" electrocuted so far, one at Waco and one at Wichita Falls.

We have two members of the I. B. E. W. scabbing at Dallas, E. A. Grady, lineman, out of Local 558, Sheffield, Ala., and D. E. Therrell, a cable splicer, out of Local 69, Dallas. Another man by the name of Fred Kissell, is scabbing. He never had a card.

There are more scabs in Dallas than all the other parts of the district, but there are very few linemen in the bunch. Most of them are just there for an effect. Most of them carry guns and there are several special armed guards who guard them wherever they go.

The entire holdings of the Texas Power & Light Co. are tied up. The Local Unions involved are as follows: Dallas, Ft. Worth, Waco, Temple, Palestine, Wichita Falls, Sherman, Denison, Claburne, Terrell, Paris, and all other towns where there are no locals are tied up.

Should the strike be settled before the next issue of the Worker all locals will be notified by circular letter. I would ask that all locals watch the employment offices and private detective agencies in your cities and try to stop men from being hired and shipped by them, for the company is importing men from all over the country wherever they can get them.

With best wishes, we remain

Yours fraternally,

H. T. Robinson, Press Sec. Pro Tem.

LOCAL 74 OF DANVILLE, ILL.

Editor:

As Local 74 hasn't had an article in the Official Journal for some time will endeavor to get in an article.

The local is one of the largest in this part of the country for what time it has been organized and has the pep to it to keep it going. Only wish we had more field to cover so we could increase our membership, but we have run out of material as we have the jurisdiction covered by our local organized 100 per cent.

Trusting the other Railroad Locals are organized as well as ourselves, will close.

J. D. K., Press Secretary.

P. S.—Wish to thank Local 74 for flowers sent to my wife confined in hospital after an operation.

J. D. K.

L. U. NO. 84, ATLANTA, GA.

Editor:

As I have been elected P. S. I suppose it is my duty to drop you a few lines and let you know Local 84 is getting along.

We are still on the map fighting the unfair contractors harder than ever and will continue doing so until they decide to go along with us in the right way. We have a few contracts signed, which enables us to keep most of the men at work.

We have just signed one of the biggest contractors in this section of the country and we feel that we are making pretty good headway toward a final settlement, although I would not think it advisable for a Brother to come in here at the present time.

The following shops have contracts with us: Walker Electric & Plumbing Co. (who just recently signed with us), Boon Rosetta

Electric Co., Independent Electric Co., Quick Service Electric Co., Atlanta Electric Co., Electric Fixture Co., Geo. H. McKee (Jr.) Motor Repair Co., Long Electric Co., E. C. Locke Electric Co., Okeef & Richardson Electric Co.

We are not working in the following shops: Carter Electric Co., Clayton Electric Co., Cotton States Electric Co., Gate City Electric Co., Hague Electric Co., T. H. McKinney Electric Co., McGaughey Electric Co., E. D. Peters Electric Co., Russell Electric Co., and Woodward Electric Co.

I want to notify all Brothers to stay away from Camp Benning, Columbus, Ga.; also McKinney job, Columbia, S. C. These jobs were contracted for under union conditions, but since the armistice was signed McKinney has refused to renew contract with Local 84. Mr. McKinney states that as a member of the Contracting Employers' Association that it would be a violation of his agreement with the association.

We hope in the near future to get a closed shop contract with every electrical contractor in this city.

While I am press secretary I will try to get a few lines to you each month in regard to Local 84 and what she is trying to do down in Atlanta.

Fraternally yours,

B. H. Haley, P. S.

L. U. NO. 95, JOPLIN, MO.

Editor:

Just a word as to work in this district. There is very little work in the electrical line in Joplin at present and I would not advise any of the Brothers to come this way as long as the mines are shut down; and there is very little prospect for them to open up until the price of ore advances from its present price; and with no new building going on Joplin is no place for a wire patcher to head for now. If you can find space in the next Worker for this please put it in for we have had quite a few letters from the Brothers in regard to work in and around Joplin. It might save some Brother from coming here only to get disappointed. With best wishes to all from Local No. 95.

Nat Graham,
Rec. Sec., 713 Moffet Ave.

L. U. NO. 103, BOSTON, MASS. The New England Strike and Government Ownership of Utilities.

By D. J. M'DOUGALL.

It is quite safe to say that there never was a time in the history of the world at which there was so much unrest and so little violence as there is at present. Social and political institutions of long standing are passing into history and amid the crash of empires and the fall of dynasties is heard the voice of humanity rising in mighty cadences above the tumult and the strife and demanding the God-given birth-right of freedom which is the heritage of each individual member of society, irrespective of race, creed or color. The great tragedy of the world war that was ended in 1918 was instrumental in ridding humanity of the inebus of autocracy as typified by the despotic rulers of Central Europe and their satellites. America is in a great measure responsible for the events of the past two years. She has set the pace in democracy and others are not slow in following. The head of the American nation is today the most powerful individual in the world and is looked to by all classes for advice and guidance on the vexing problems of the day. But while things are changing for the better abroad but very little change has taken place in America, where the pre-war conditions still exist. Autocracy is hard to camouflage. Whether it shows itself as imperialism in politics, capitalism in industry, bolshevism in

society or sectarianism in religion, it is the same spirit that directs them all—the spirit of selfish, ruthless ambition and class distinction. We have had a shining example of autocracy in America, in Boston and other sections of the New England States during the Easter week. The Czar of the U. S. Postal department was under the impression that slavery still existed, and it took the telephone operators of the New England States to show the gentleman in question and his lesser satellites that we are not living in the Dark Ages. The operators had the public behind them and their spunk commands the admiration of all fair-minded people who like to see justice triumph, especially when handicapped. The fight was short, but very interesting, and one feature of it was the scarcity of scabs. A few society ladies (so-called) volunteered their services, and along with a few of the snobveracy of Harvard and Tech, had rather unpleasant experiences, in which some of Uncle Sam's soldiers and sailors, who are always ready and willing to aid beauty in distress, figured prominently. These boys helped to make the world safe for democracy in Europe and helped a lot to make it safe in America. Their actions were no doubt inspired by the justice of the cause and perhaps also by the very attractive aggregation of femininity who acted as pickets and otherwise made themselves useful during the strike. A great deal of credit is due the girls for the manner in which they handled the situation. There was but little display of violence and the most scrupulous advocates of law and order could find but little reason for complaint. There seems to be a well organized move on the part of the monopolies to get back control of the public utilities and it seems that they are trying to throw discredit on government ownership and control and get back their free meal tickets—paid for by the public. If the railroads and other public utilities are to go back to private control it will eventually mean the growth of interests in the country that because of their control of vast sums of money invested in these concerns will grow bigger than the government if given back their old privileges. This would be a national calamity and is a matter that should receive the earnest consideration and attention of the American people of all classes.

There is no perfect government under the sun. Perfection is a standard that has not been attained yet in any department of human effort, but we know that some things are nearer to perfection than others and government control of public utilities is better for the public than the exploitation of these utilities for the private aggrandizement of a few bloated financiers, which class let us hope will some day fall into disrepute in this country. Organized labor particularly should direct its efforts along lines that would ultimately put these utilities beyond reach of greedy interests who, under the guise of encouraging individual initiative, would sacrifice individual and national honor to enrich themselves by fair means or foul, but oftener foul than fair.

L. U. NO. 122, GREAT FALLS, MONT.

Editor:

As I have had the position of Press Secretary "wished on me" I wish first to extend my sympathy to the Brotherhood at large, upon whom I shall inflict articles from time to time.

However, we have just survived one of the hardest fought city elections in the history of Great Falls, and in saying that we made them "sit up and take notice" is mild. We had a Citizens' Labor Ticket in the field, complete—every man being a card

man—and while we only elected one alderman, we came within 70 votes of electing the mayor, which was exceedingly good, considering that we were in the field only three weeks. But, while elated at our success, we cannot help but realize the lamentable conditions existing in organized labor today, the most absent one being unity. How many of us realize, or realizing, use the power of unity?

Take the cardinal principle of organized labor—protection: What is protection without unity? And do we use it at all times in protecting our interests, especially at the ballot box? The old howl has always been, bring yea not politics into your organizations, but time changes, my friends, and where could there be a more fitting place to discuss your political ideas or do you prefer a saloon or some street corner?

The time is not far distant when there will be only two parties anyway, the labor ticket and the capital or business ticket, which was clearly demonstrated at our last election.

It is about time for us to wake up and show that strength of unity for which we are organized, for the old style of voting the "party ticket" just because your father or my father voted that way will soon be out of fashion, and instead we will say, my dad was a laboring man; he spent time, energy and money for the cause of organized labor and I can do no less than vote the labor ticket straight.

The curse of organized labor today is jealousy, and the man that knocks his fellow worker because he has a little better position or is a little more skilled at the trade is little better than some foul beast or an A. C. M. stool pigeon, which reminds me, we are cursed with an over-abundance of those "birds" around here (of both kinds), whose services we could dispense with entirely. I never tried to understand a man's reasons for that kind of work, but put it down to pure cussedness and let it go at that. We have had to discipline a couple of Brothers for being too ambitious and violating shop and working rules, fining one \$25 and the other \$50.

But then, what are shop and working rules for if not to live up to.

Conditions are fair here at present, but we are looking for a big blow-up the 1st of July, when all our contracts expire. So have your donations handy.

We have a fighting M. T. C. here now and we are pinning our faith on them. Let's hope we will not be disappointed.

Fraternally yours,

C. W. Sprague, P. S.

L. U. NO. 135, LA CROSSE, WIS.

Editor:

The inside men got an increase of 10 cents per hour, making 60 cents, and a closed shop. The clause, from the Building Trades Council, that "union men will refuse to work with non-union men whose locals are affiliated with the B. T. council", was inserted and accepted also.

The linemen have made no effort for an increase so far.

We took in three new members of the latter class at our last meeting and as work is not slacking up we are all pretty well satisfied.

There are many lectures and speeches in this city and we notice that all of them pertain to organized labor; in fact, our last city election was an "all labor" affair and came out in the toilers' favor.

Several of our Brothers are still with the colors and we hope to hear their opinion of the famous (?) concentric wire that is used in Germany.

Yours fraternally,

E. H. Jaekel, P. S.

L. U. NO. 153, SOUTH BEND, IND.

Editor:

As No. 153 has not been heard from for some time, will try and make good on my job as Press Secretary. Brothers, you especially in nearby locals, will see advertisements for wiremen telling you about the good conditions and fine chances you will have in South Bend, but you will not hear anything about the wiremen being on strike here. Wiremen have been out since April 15. Had an offer from the Contractors' association of 60c per hour, but are out for 75c per hour or nothing, so you can see what we are up against. Wiremen are out 100 per cent strong and have not lost a man so far. Have started a cooperative shop and we are getting quite a good deal of work and looks as if we are going to give the Contractors' association a run for their money. There are no big jobs here so far this spring, but expect plenty of work this fall if the Studebaker corporation builds as expected, but so far they have not started. All on paper as yet. Outside work is just normal.

Hello, Brother W. W. Wade! Would like to know how you got to the coast. Would like to hear from you. Would also like to hear from Brother Edward Waite, whom I worked for stringing a wire over the S. P. into El Paso several years ago.

Hoping that we will have better news next month, will cut out for this time.

Yours fraternally,

C. M. Hildebrand, South Bend, Ind.

L. U. NO. 155, OKLAHOMA, OKLA.

Editor:

The boys of Local 155 of Oklahoma City have been in line with the efforts of all locals over the country, that is in trying to make their organization one hundred per cent strong in our territory. And we have not worked in vain, for our successes have far outstripped our failures. But we still have a large field ahead of us. There are a large number of telephone employees and quite a few inside wiremen. The telephone employees are rather a hard bunch to reach as they are deathly afraid of what they call their position, which is little more than a habit.

As to the inside men, our Brother Custenborder has suggested a plan for handling them, and the committee is now investigating the merits of this plan. The plan is for the local to use its influence and support in starting an inside shop. And in that way we feel that the union boys can do the greater part of the jobs. The details of the plan are not completed at this writing, and it remains to be seen what the committee will work out.

The boys are pretty well all busy here; however, there are a few idle. And there are no immediate large construction jobs in sight.

Brother W. W. Wade of 83, Los Angeles, introduced a real good idea, that of an electrical workers' home, and produces the figures to show that one cent a day from each electrical worker would create an annual fund of approximately one quarter million dollars. And we believe that a proposition of this kind would be readily ratified by the brotherhood if it could be worked out along lines of a future personal interest to all.

N. I. Sommers, P. S.

L. U. NO. 188, CHARLESTON, S. C.

Editor:

Well, Brothers, there isn't much to write about this time, therefore my message will be short again. L. U. 188 is still working hard to get all the fellows to come across and get in line by July 1. We are looking

for several new members within the next two weeks from the Southern Bell.

We only meet now during the summer months twice a month, first and third Friday nights. Two or three of the boys have left the job and gone with the floating gang.

Think I will ring off. Wishing all the Brothers a prosperous summer, I remain,

Fraternally,

Samuel Hutson, P. S.

L. U. NO. 205, OMAHA, NEBR.

Editor:

Well I guess that I will bob up on a different page in the Worker and dip my pen in the ink to get a few lines to the Worker for Local No. 205. They not knowing any better than to appoint me press secretary.

I will say for the benefit of the Brothers of Local No. 205, who expect to get all the news of the local from the Worker instead of attending meetings they are doomed to disappointment at least until I get better acquainted with the Brothers.

I would suggest that when the I. O. gets through with Mr. Burlson and his hide nicely tanning in the sun on the outside of the Reich building that the next step would be to turn loose on the Railroad administration and get them to jar loose with a little more of the long green as 68 cents an hour to support a family on now is just an aggravation, and it is not more hours, but more money that we need.

It will be necessary to clean up on the Kaiser of the P. O. Dept. first and then we will see what Mr. Hines will do and from the way that the Operating Dept. and the four R. R. Brotherhoods were taken care of the new director general is not too generous hearted though he may be better after Congress meets and passes an appropriation bill or two.

Another thing that the Railroad Electrical Worker needs is Organizers and on the campaign of organization on the S. P. lines. I understand that the Electrical Worker was the only one of the six federated crafts that did not have an organizer with the party. I think the assessment was a good move (six months late.) There never has been a time in the history of organized labor that there was the opportunity of organization and it looks to me as if the Electrical Worker was asleep. The telegraph linemen are getting away from us; the electrical signal men are slipping. The hoisting Engineer is after the crane and the elevator constructor has levied a ten dollar assessment on each and every member for the purpose of grabbing some of our work. Brothers, you have tied the hands of the I. O. (and it looks as if they were willing up to now to let them stay tied) in the financial way and then get out and holler "Electrical work for the Electrical Worker," and expect that to bring home the gravy. Then some brother in North Yakima hollers I told you so let's shoot the fish.

Well, guess I have taken a whack at enough for this time and from the way I was burned up in the last meeting if I can pass it on I am sure that I am doing my part.

Brothers, lets get together and swat the American Huns and after we have won our fight there it is time to fight among ourselves. Well, so long.

Riley.

L. U. NO. 211, ATLANTIC CITY, N. J.

Editor:

Work in Atlantic City is not what it should be although almost all the members of Local No. 211 are working. We are getting the new scale of \$1.00 per hour for foremen, 87½c per hour for journeymen, 40c per hour for helpers. No. 211 is still on

strike. Four shops using nonunion men at 75c per hour. The reconstruction period is on at present and all indications point to a large building boom in the fall, as it is certain that there will be more people here than ever visited Atlantic City before, which will mean that more money will roll in than ever, as the hotel keeper has the happy faculty of separating you from your money in a polite and systematic manner; you cannot be anything but pleased unless you are a piker.

Organized labor has won a wonderful victory this year as they had a powerful building trades alliance composed of the employers of all building crafts. They had the fullest cooperation of the Hotel Men's association, Board of Trade, Chamber of Commerce, and the Real Estate association which is the strongest combination in the state with a combined capital of millions of dollars, and believe me they used every effort to crush organized labor.

The bricklayers and plasterers deserted the Building Trades Council so that they would not support those in trouble, and the Employers' Alliance, mentioned above, rewarded them for their fidelity to them by refusing to grant them \$1 per hour, compelling them to accept 95c per hour after a strike of one week. If they had remained in the Building Trades Council they would have won out hands down, and they realize that now when it is too late.

Local No. 211 has taken care of all their returned soldier Brothers. They were placed on a job as soon as they decided to go to work, and you are assured that that was very soon as they covered themselves with glory while defending the flag and all but two were across the big pond, and they came home broke. But to their credit they have no complaint to make as they claim it was their duty and that is all there is to it. No. 211 is proud of them as they are all good union men and fighters. More power to them. Fraternally,

H. H. Freed, Press Secy.

L. U. 220, AKRON, OHIO.

Editor:

Just a word from Local 220 to let all the old boys know we are still on the map. With the assistance of Brother Ray Cleary we are conducting an organizing campaign and are meeting with quite a success. We are keeping Business Agent Joe Shepard busy taking in applications and accepting dues.

Former Pres. C. C. Davis is now in business with Brother F. W. Douglas for a partner and they are doing quite a business. Since the withdrawal of Bro. Davis we had Brother H. G. Smith holding the chair. He also gave that up to go into business, but was recently made city inspector, so he gave up his business. Now we have Brother H. S. Knoch as President, and he seems a very capable man for the position. We would be very glad to hear from some of the old members of this local—Jack Lane, McCabe, Akers and all of the boys.

Press Secretary, 463 Pine St., Akron, Ohio.

L. U. NO. 225, NORWICH, CONN.

Editor:

Upon receiving the April Journal it awakened me to the fact that it was time to get busy with another circuit before the 10th, as my time is short and I am rather busy I cannot do much this time.

I cannot remember all the past, but will say we are still struggling along, fighting against capital as some of our loyal Brothers are against the Huns.

We have been receiving great results from our Business Agent, Brother Bernier, especially with the outside men. He has a large field to cover, but when he is

needed he is there. All good things, they say, come in little or small packages.

I hope the Brothers do not feel that I am handing the Brother too many compliments, but I always say, give the credit where it belongs.

We have just got up a new set of By-Laws, which are being read at our meetings now. In these By-Laws the tardy Brothers will be taken care of by a nice little fine if they miss both meeting nights a month; so come around Brothers. Don't be one of those who has to be forced.

A new member, yet an old Brother in unionism, has been brought into our Local. He is an old bug at line work. He has been climbing poles so long that when he walks you would think he was dancing the fox trot, but outside of that he is a good union Brother.

Brother May does certainly make a good treasurer for our Local. He is very happy with his job, and sleeps, as I have been told, with the larger pillow under his head. He is a firm believer in safety first, and I think it is a good way to believe.

I think we will have to get our worthy President an auto truck, as I hear he walks in circles in his sleep. The Tin Lizzie that he used to have caused him so much trouble that he thinks he is at the wheel when he is walking.

If any Brother knows of a good soap that will take off melted insulation, let me know, as I can use some.

Now, boys, if you see the dust collecting in the road, don't shoot. It is not a German submarine on wheels, only Brother Chris. Cudney in his Fordmobile; so go easy.

Under date of April 30 we received the sad news of the death of our Brother, Roy Crawford. He was 22 years old and was employed at the Eastern Connecticut Power Co. at Montville, Conn., when the accident occurred that caused his death.

The local electrical work is rather slack at present. At our last meeting, May 5, it was reported that all the Brothers were working, but not rushed.

Every day some one who has been serving his country blows in, and is eager to secure work. In most cases they are members of our Local, and are put to work by our Business Agent.

Many of these Brothers have been in France and England, and probably the boys would enjoy a little speal on their experiences in No Man's Land.

Well Bob, I thank you for the little bouquet you threw me in the letter. I do not pretend to be a correspondent; no, not even Press Secretary, but I thought I would drop a few letters to the Electrical Journal so as to let the boys know that I am not a quitter when it comes to writing letters.

Well I must sit down as only one Brother is allowed to talk at once on a subject.

Wishing good luck to all locals and the officers of the I. B. E. W., I am

Fraternally yours,

W. P. Hill, Rec. Sec., Local 225,
Norwich, Conn.

L. U. NO. 258, PROVIDENCE, R. I.

Editor:

Just a few lines that will be interesting to the locals of the I. B. E. W. in regards to the great victory that the members of Local 258, also other Locals of the New England district in the recent labor trouble. As I have stated in one of the Workers not a very long time ago that we were going to make a good fight when the time would come. Well the time has come and I can safely say that it was one grand fight from start to finish, and I am very glad to say that we have come out on the top.

They talk about the Yankee division boy making history for the world, and I also say that they have made history, and again I say with pleasure that the telephone workers in the I. B. E. W. of Rhode Island, has made a history for Organizer's labor world in Rhode Island, for organized labor is handicap with great odds in this state, but I can tell the brothers in the I. B. E. W. or any other organization that the organized labor in this state is a waking up to the facts.

I am also glad to say since the victory has been won that Local 258 is very busy with new applications. I will give you just a short outline of the whole affair from the start to the victory or finish. On April 5th, 1919, the operators went out on strike and on the same night the men voted to go out on strike with the operators, the delegates were sent to the Joint District Council in Boston, reporting the action taken by the men, and on April the 16th a committee was appointed to notify the telephone officials of the action taken by the men employees, and on April 17th the men went out on strike and I like to add here that it was one of the cleanest strikes that has ever been seen in this state for it was a 100 per cent walk-out of the organized members and we received new applications from the employees of the company that had no intention of ever becoming a union man until they seen the way that things were going and every thing being done so quiet and clean by the officers of the strike committee and the pickets on duty, that they felt it their duty to fall in line with the rest of the men and they did.

And as I said before that the organized labor was looking on with eyes wide open for they could not help but speak of the way the strike was conducted. I am also glad to say that the labor organization of the state were with us heart and hand and pledged their sole support both moral and financial to the extent of their means, and I can also say that the public was in sympathy with us from start to finish for they bore the inconvenience of being without telephone service with untiring patience, and we always received words of encouragement from the public, with the exception a few of the property qualification citizens of the city of poor, for they were crying for telephone service and they were trying to get it by protesting regards to hospital calls and doctors calls for the sick. But nevertheless they wanted service for their own benefit.

Some of the faithful society folks went to the exchanges to operate the switch boards. Now you can outline the picture in your mind of these society set that never done a day's work, and for them to try and operate a switch board with one hand and doing knitting with the other hand. But I can tell you that they did not succeed with their trying and they now know what the operator is up against when operating the switch board.

We wish to state that we had some more friendly enemies who tried the strike breakers job by trying to operate the switch board, and the sap heads were the students (meaning the freshmen) of the Brown university College of Poor. But we put a stop on that business by sending a committee to the president of the college, and the committee called on the senior students of the college and explained the case to them. So they held a mass meeting in the college and the results of the meeting was that they went looking for the freshmen. I also wish to state that some of the freshmen got a good beating by some sympathizers, so one day's work was all that they wanted. It is very easy to see that we were in the right light for the merchants refused to do business with the strike breakers that came into their store

or shop, seeking for shelter from the crowds that were following them, and believe me that the crowd that would gather, it would be from 100 to 200 people, for it would look like a small parade.

I would like to say a word of praise for one of our Providence papers, which is the only friend that organize labor has got in this city for this paper gave us the greatest support that any paper in any city or state could give to us in our labor trouble or any other organize labor trouble, and we feel proud to say that the name of this paper is the Providence Evening News. Brothers whenever by chance that you are in Providence don't forget to read this paper and just see what it says about Union labor and movements. There are many other Organizations in Providence that we owe praise too for their support, for these are a few that I will mention: Street Carmen Union, Machinist Union, Textile Works Union, and there are many others which offered their support if we needed support, but we thank them for their offer, as luck was with us for the strike did not last but three days for the men and five days for the girls. I will state the most principal gains that we received, and they were this: an increase in salary and retroactive from Feb. 1, 1919, and a right of collective bargaining, and there were a few other rights granted to us, but I thought that I would state the most principal ones that the three locals received.

The three locals that were out on strike in Rhode Island were locals 65A, 258, 516. I wish to say that a lot of credit is due to the strike committees which were composed of the Executive Boards of each local 65A, 258, 516, and some credit is due to the captains of the pickets to see that the pickets were always on the job patrolling the buildings of the telephone Company, and believe me that they were on the job, and if they did not report why someone went after them, so you can see that no one was laying down on the big job, and I also state that the railroad station was patrolled by pickets, so as to watch for strike breakers coming into the city.

I like to state here to all the press secretaries that if they know of any telephone men or light men that intends to come this way that they would notify them to be sure to have their card with them. I want to say a word in regard to the working condition here at the present time that they are not very promising, but times are expecting to be somewhat better in the near future.

On May the 5th, 1919, we celebrated the home coming of our 26th division boys of the state of Rhode Island, and believe me it was some celebration, for the city was decorated to the extreme and it was also a holiday for the stores and shops were all shut down for the day and everybody was on deck to see the parade.

We are also celebrating the Victory Liberty Loan and I can say right here and I feel proud that I can say it that the members of Local 258 have all subscribed to the loan and I hope that all the brothers in the I. B. E. W. have done the same.

I wish to say that we have with us again Bro. Proulx for he was up at our late meeting.

I suppose that it is about time to lay away the pen for the time being, for this letter is a little longer than a short one. We will wish good luck to the members of the I. B. E. W.

We remain as ever true and loyal telephone and light members of Local 258.

Fraternally yours,

Fred J. Bayher,
Rec. Sec'y. and Press Sec'y.

L. U. NO. 269, TRENTON, N. J.

Editor:

In last month's issue of the Worker it was stated that Local No. 269 of Trenton had settled the strike at an advance of 7 cents per hour, which should have read 17 cents. It occurred in this way: Most of the shops were paying 10 cents above the agreed scale during the war period and many continued doing so after the war, and upon settlement all agreed to pay that advance until May 1, at which date the 7 cents additional would be added, which really means an increase over the previous scale of 17 cents. The new rate is now in effect. The agreement of course calls for an eight-hour day and all overtime at the rate of double time.

The present outlook is no brighter than stated in the last issue, namely, that the members of No. 269 are doing their best to abstract nourishment from promises for the future, except the display work for the home-coming soldiers having broken, and that somewhat of a disappointment in that the illumination chiefly consists of flood lighting, and one or two lights will cover a lot of space. As yet no move has been made toward clearing ground for either the million dollar hotel or the new theater, so that the best that can be hoped for in this line is some work for the winter.

Through the activities of Brother Harry Ford, one Local 269 delegate to the Mercer County Labor Union, marked distinction has come to this body through his loyal efforts in organization work. Brother Ford, while passing one of the factories of the American Cigar Co., noticed a number of the girls employed there rushing out in a body in the middle of the afternoon, and upon ascertaining the cause for the cessation of work, counseled with them to go home, and arranged that they hold a meeting later. As a result no violence of any kind took place and at the meeting authorized organizers of the A. F. of L. were on hand, whom Brother Ford assisted, and a healthy organization is in the making. Brother Ford is still working night and day assisting the A. F. of L. and the Cigar Workers' International Organizers in the struggle for union principles of an eight-hour day with increased pay and working conditions in harmony with the present civilization area. Brother Ford is also the authorized agent of the United States Treasury Department for the sale of Thrift Stamps and War Saving Stamps and stands in line for an organizer's charter of the A. F. of L.

The notes of Linemen's Local, No. 21, of Philadelphia, spoke of wishing to hear from Trenton, and if they referred to No. 269 it is to be hoped that their wishes were fulfilled with the April number, but more than likely they mean Local No. 29, whose inactivity can be laid at the door of Brother Harry Manly, who, besides being the busiest man on the local trolley pay roll, has recently been married, and in this way his time is all allotted.

The Business Agent, Rupert Jahn, is making good headway in increasing the membership among men employed in maintenance work in the manufacturing industries of this jurisdiction, and in the near future it will near the 100 per cent mark. The sickest calf to cure is the Merchants Shipbuilding Corporation at Bristol, Pa., which is generally organized with the exception of the electrical workers. This division is under a former Brother, Buzby, and as soon as a man makes any move toward unionism his discharge is effective. However, there are still hopes, and with the assistance of Brother James Mead of Local No. 98, whose efforts are appreciated, something may yet come from this job.

Any floaters drifting around in the East

will find several sights of interest and historical prominence in Trenton, but if it be work they are seeking they had better arrange for a train that does not stop here, as more Trenton men are out of employment than at the time of the last issue.

Lester Dunn,
Pres. Sec., L. U. No. 269,
Trenton, N. J.

L. U. NO. 327, PENSACOLA, FLA.

Editor:

Well, here's the Press Secretary from Local No. 327 again after a rest of thirty or sixty days. We are still flocking along down in this "neck of the woods," with all Brothers working, and could at times use a few more card men, but the government work here now is a little uncertain; nearly always war this time of the year during peace times. The ship yard cut off a few Brothers some time ago, and they took travelers' cards for other parts, but I understand at present that they are employing a few men in all crafts. Can say that there aren't any men loafing here at least.

Since my last letter to the Worker Local Union 327 has lost one of its best workmen in Brother Bemery J. Griffin, who passed away at the Pensacola hospital Saturday night, April 19. All that was possible to medical science and faithful nursing was done, but all failed and he passed to the great beyond just as he was reaching the prime of manhood at the age of 31.

Brother Griffin was a true friend and loyal member of Local Union No. 327, being

a charter member and a mechanic who was a credit to his craft.

Well Brothers, should you decide to drift this way, I would advise you to be in good shape and have as high priced card as possible as the boys in this little "burg" are carrying a \$175 card, which you may think, no doubt, is a little steep for a city of 35,000 population. We are well organized, anyway, well I should say 90 per cent, taking in all the crafts, but you know there is always a few slackers or black sheep in the flock, but, Brothers, they are being weeded out. We are not asleep and we have got the ball a rolling up the hill. Now, all together, and let's not let it start down the hill again.

Organized labor has had and is having its day now, so let's reap the harvest while the sun shines. Now is the laboring man's time to make conditions for the future, so let's stick together and go after it. I see the boys of old "Mother Bell" are awake now and they have the ball rolling in good shape. Go after it, boys. We are all with you to accomplish your purpose, which is nothing but just and human—a living wage scale.

With best wishes to all the Brotherhood and every effort for the advancement of our great organization, I am,

Fraternally yours,

L. L. Sparks, P. S.

L. U. No. 329, SHEVEPORT, LA.

Editor:

Just a few lines to let the Brotherhood at large know that No. 329 is not asleep. Having just been discharged from the service, went to work for the Light Company in time to present them with an agreement, on the 23rd of this month. Our committee, composed of Bro. L. L. Jolliff, J. J. O'Donnell, E. Averitt and Al Dixon, who conferred with the officials of the Southwestern Gas & Electric Co. last Wednesday, submitting the agreement which was signed by our international vice-president, Bro. J. P. Noonan. Our agreement asked that all service men, linemen, meter men and lamp trimmers be granted an increase in wages to \$6 for an eight-hour day. In the past construction linemen have been receiving \$4.80 per day and meter men from \$80 to \$110 per month. At present time a negro is employed by the company as lamp trimmer. Brothers this negro must come off the job, as this is the object the superintendent has to throw up to us at every time we go for a close shop job. He says he will give a white man the job, but can only work eleven days in a month, as it only takes this time to trim the circuits. But why not have one of us trim the lamps on these certain days. Are we going to let these companies keep us down? No, our grand old I. B. E. W. will live forever. So let's get together and do our best to help build our Brotherhood to 100 per cent. strong everywhere.

The company agreed to give the construction lineman \$5.50 per eight-hour day. All efforts on our part to have all conditions of the agreement included failed. We appealed to the grievance committee of the Central Trades and Labor Council. This committee took the matter up with the officials of the company. Three meetings were held in one day with the superintendent. No result was achieved and the negotiations broken off. We had our final conference at 5 p. m. Friday the 25th, as he said he could not and would not sign an international agreement, but would draw up a verbal agreement between the linemen and one for the meter men separate. We agreed to the scale of \$5.50 per day, providing all service men were included. This compromise was rejected, so having the sanction of the grand office to place job unfair, we took action after we seen the

company refused to accede to our requests.

Brothers we are standing just and looking for this job to pull out right. It has been dragging on for the last eight years with no final end, so we expect to pull through with the aid of the people of Shreveport. Would like to see an organizer in this district at due time. We expect to be 100 per cent. strong by next meeting night. The general foreman is the only one left on this light job and we have nine brothers pulled off the job. Before I close, I would like to say, beware of a M. W. Savage of Box 295, Atlanta, Ga., who is trying to get light linemen for their Texas job. Has offered to pay me \$6 per day and board and traveling expenses to any part of Texas to scab on my Brothers in their struggle for a better world.

I may be on the tramp in a few days, and have a wife slaving for \$15 a week in Birmingham, but my God we must do something to better our working conditions. Trust I haven't taken up too much space in the Workers. I beg to remain,

Yours for the cause,

Roy "Rusty" Johnson.

Local No. 329, Sheveport, La.

L. U. NO. 353, TORONTO, CANADA.

Editor:

As this is our first appearance in the Workers. I will try and give the brothers some news, which I hope will be beneficial especially in Ontario.

On March 29, 1919, a number of delegates from the I. B. E. W. locals met in Toronto and decided it was near time we get together and help put the craft on a sound footing in the province, and it did not take long to get going. We had Vice Pres. E. Ingles and organizer J. Noble with us, and we were all thankful for the help.

Owing to the flu epidemic (as we have to blame it on something), we got a very late start, so we cannot expect to derive much benefit this year. However, officers were elected and a constitution drawn up, making sure the works were well oiled for a good start next year.

The officers are: W. E. Eldert, L. U. 787, St. Thomas, president; A. E. Morrison, L. U. 261, Peterboro, G. H. Ivory, L. U. 105, Hamilton, Albert Yapp, L. U. 773, Windsor, vice-presidents. G. W. McCollum, L. V. 353, Toronto, secretary-treasurer.

The executive board consists of the officers who are working hard on agreements covering all branches of the craft. These will be all ready to be digested at our next meeting.

The president called the executive to London on Sunday, April 27, 1919, when important matters of the craft were discussed. The most important was the submitting of five names to the premier of Ontario as our choice for the vacant position on the Hydro Commission. Here's hoping that we are successful in landing a brother in that position, as it is time some of the good jobs were open for the men with the tools.

In closing, Mr. Editor, I just want to say a few words to the locals who have not joined us, as soon as you get settled up with the agreements you have pending, haul out the constitution of the O. P. C. E. W. which was sent to you, and give it serious consideration as the secretary expects to hear from you soon. I remain,

Fraternally yours,

G. W. McCollum.

Secretary-Treasurer.

223 Perth avenue, Toronto.

L. U. NO. 369, LOUISVILLE, KY.

Editor:

Local 369 is coming into its own. The park agreement has been signed: Maintenance man, \$175 per month; devise men, \$35 per week. The agreement with the Courier-

Journal: The maintenance man, \$36 per week for 8 hours. The dynamo tenders are receiving \$27 per week of 8 hours, 48 hours week, time and a half overtime..

Our construction agreement of 75c per hour, 44-hour week, with time and a half overtime, double time Sundays and holidays.

We lined up Bland Electric Co., which has been unfair for the last four or five years.

All of the boys are keeping busy. Could use four men today. Don't know how long it will last, but it looks like Louisville will be short of mechanics when work opens up.

There is a lot of work figured, but when it will be turned loose is a question.

With best wishes for the Brotherhood, I am, Fraternally yours,

W. H. Blume,
Business Agent, Local 369, I. B. E. W.

L. U. No. 434, DOUGLAS, ARIZ.

Editor:

Just a few lines to let you know that local 434 is still in existence. But first of all and with regret, I will state that our worthy recording secretary, Fred Matthews, met with an accident a few days ago. Bro. Matthews was testing out an armature in a locomotive case which was setting on the repair platform, and while doing so the hands around the armature busted, allowing the coils to open up and bind against the field poles, and turning the motor case completely over and in some way striking Bro. Matthews on the knee while setting down with such force that it broke his shin bone just below the knee, which was very unfortunate, still we all consider that he was lucky after all that he wasn't hurt any worse, considering the way the accident happened. The doctor states that Bro. Matthews will be laid up for at least two months, though we all hope to see him on the job in less time than that, but if not serious results take place we all feel that Bro. Mathews will have no come-back. And now I also regret to state that local 434 is at the loss of Bro. Paul Jorshkey, crane-man employed at the Calumet and Arizona smelter, and while Bro. Jorshkey was only a crane-man, away down in his heart he had a feeling for organized labor, and will be missed by his many friends and brother workmen. I am enclosing a resolution for Bro. Jorshkey for publication.

Well, things are still pretty quite in this section of the country, though the co's in this section seem to be putting on men at present instead of laying off, which looks rather encouraging, and there has been no decrease in wages lately, but a great increase in the price of living, especially meat. It takes two weeks' wages to get a good look at a small T-bone stake, and the balance of your month's wages if you want a good taste of it. Well, I would like to state that so far we have not heard anything of Mr. Allen Crozier yet, and we will highly appreciate it of anyone who will let us know of his whereabouts. Well, this is all I know of to say at present, so I will close, with best wishes from L. U. 434. I remain Respectfully yours,

J. C. McCunniff,
1021 B avenue, Douglas, Ariz.

L. U. 445, BATTLE CREEK, MICH.

Editor:

Just a few lines for the benefit of I. B. E. W. No. 445, of Battle Creek, Mich., stating that we are still on the map and fighting every minute. The following I would like to have in the Worker:

We have been successful in landing one of our worthy brothers in the office, which is a new one, of City Inspector, which includes all interior and exterior work, as well as gas installations. We are also en-

deavoring to put through a charter covering all electrical work, in this city. This is one thing that our city has never before had, and as a consequence they have been very easy on their electrical inspections.

One of our brothers, Chas. Wilkinson, for good and sufficient reasons stands suspended, also with a fine of \$50 imposed upon him. Take notice all L. U.'s, and keep an eye open for this fellow, as he is somewhat of a floater and is very slippery. If he gets the chance he will slip something over on you and be gone to some other place.

We also have an ex-brother, Mr. Wheeler, who proved himself very unfair to organized labor. While out on strike in this city with one of the local contractors, same still out, he staid out just one week, appeared on the scene at the regular meeting night of No. 445, drew his strike benefit, and went to work for the same party, who he walked out on the following morning. He naturally stands suspended, and also with a fine imposed upon him of \$100.

At the present all the Building Trades Unions of Battle Creek are affiliating and trying to get a Building Trades Council organized. So far we have had three meetings and have been very successful, and I believe that within the next month we will be fully organized, all unions included under the Building Trades, seem to be greatly interested and are co-operating in every way possible.

With what few meetings we have already had, it seems that the Chamber of Commerce of this city have got wind of what we are doing and they seem to begin to realize that our movements demand their standing up and taking notice. The fact of the matter is, that all concerns in this city either manufacturers or merchants are getting wise to the fact that unionism means business and is here to stay.

Fraternally yours,

J. Fetter,
Press Secretary I. B. E. W. No. 445.
160 Green St., Battle Creek, Mich.

L. U. NO. 455, MIAMI, FLA.

Editor:

Yas'm, we'er here, local 455, Miami, Fla., conk measlers and corn pone eaters. We call some of them snow diggers, crockers and conks, and some of them we call things youall wouldn't print. But weuns got a local down here that is trying to get conditions, so weuns wont have to eat conks all the time. I suppose some of youuns didn't know there was a local down here, but we aint had no pencil. But down in front of the hotel where weuns get our seegars weuns found one what one of them dern tourists lost last winter, so now we're going to use it and tell you all something about 455.

We all don't know very much about this here line business, but I'll bet we all can show youns where the fishen holes are.

You know Tom Connolly, foreman of the telephone bunch says he has the dernest time getten his bunch to do anything he most believes he'll quit. 'Tother day one of the bunch burnt a pole and when Tom got through diggin' the fish hooks out of his rear system, being as how he had them in his hip pocket, and by the time Tom got the rest of the bunch down out of the cocoanut trees, it was quittin' time. Anyhow, we all got tickets, and if any of youall come this way you want to bring your ticket with you. Course we all believe in them things down here. But this dern pencil takes a lot of spit and we aint had nothin' to drink in a long time, so we'll tell you more next time.

Yours truly,
"Tex." Myers,
Press Sec. Local 455.

L. U. NO. 458, ABERDEEN, WASH.

Local Union 458 of Aberdeen, Washington, have entered into an agreement with the Gray Harbor Railway and Light Company. New wage scale as follows has been provided for the members of the local:

Steward linemen, \$6.50 per day.
 Apprentice linemen begin at \$4.50 per day.
 After six months' service \$4.75 per day.
 After 12 months' service \$5.00 per day.
 After 18 months' service \$5.25 per day.
 After 24 months' service \$5.50 per day.
 After 30 months' service \$5.75 per day.
 After 36 months' service \$6.00 per day.
 Foreman Meterman \$135.00 per month.
 Lineman \$6.00 per day.
 Line Troublemaker \$6.00 per day.
 Meter Tester \$5.00 per day.

L. U. NO. 466, CHARLESTON, W. VA.

Editor:

As I was elected press secretary, I will try and let the brothers know what Local 466 is doing. Being my first attempt as press secretary, I will do my best.

The first of May we were locked out of four of the largest shops in Charleston, who refused to give our increase from 75 cents to 87½ cents per hour.

For some of the brothers who have been past members of 466, we want them to know we are still on earth. There are still quite a few of the brothers working at Virginia Power Company, Nitro, Projectile and Armour Plate. We are not all effected by the lockout.

Our new officers are W. R. Holmes, Pres.; Kryger, Vice President; B. Morgan, Rec. Secretary; G. H. Kettman, Fin. Secretary; and B. A. The Executive Board members are Webber, Morgan, Barber, Austin, Holmes and Kettman. At the present time our officers are handling the lockout situation in a very efficient manner.

It would be well for the members who are coming this way to notice Section 8, Article 14, before coming. Now brothers we are not trying to put a high board fence around Charleston, as we are just trying to keep the brothers who are locked out in as much work as possible.

At the present time there are about twenty or twenty-five brothers who are out of work. The prospects at the present time as they were here last spring when all government work was on a boom. To ruin our plant the brothers of 466 will have to put their shoulder to the wheel and all push at the same time, and we are quite sure we will get results.

Brother R. C. Miller has just come home from France and we are sincerely glad to have him and the other brothers with us again.

I hope by the next issue of the Worker that things will be brighter and all the members will be back to work getting their 87½ cents per hour. This is about all I can think of at present. Hoping there will be space in the Worker for this letter, I remain,

Yours fraternally,

D. L. Barber, P. S.

L. U. NO. 476, SAGINAW, MICHIGAN.

Editor:

Little old 476 is growing fast. We have initiated thirty-seven in the past three weeks and have nearly as many more applications on file. We have not appeared in the Worker for a long time so kindly let the world know that 476 of Saginaw is out after scalps and have their heavy artillery in action. We will move to the machinists' hall at 415 Genesee Avenue this week as

our present hall is far too small to accommodate us. With best wishes from No. 476.

Fraternally yours,

H. C. Metcalf, F. S.

L. U. NO. 508, SAVANNAH, GA.

Editor:

We have not had any news in the Worker for some time, due to my own negligence, but when the boys started talking about a fine for the Press Secretary, if something didn't appear in the next copy of the Worker, I thought it was time to get busy.

Conditions around Savannah are fair and that is the best we can say for them. A great many of the boys are out of work and the Local has stopped accepting any travelers except those over five years old. However we are hoping that things will soon pick up and every one will be working again.

Our Local and Local 243 also of this city are planning a drive to organize the Telephone Operators. We hope soon to be able to report some progress along this line.

I would like to again call your attention to our change in meeting place. We now meet at DeKalb Hall on Liberty and Whitaker Streets, every Wednesday night. Our Recording Secretary now is Brother S. L. Morgan whose address is 119 W. Gordon Street. Kindly make these changes in the directory.

A. W. Thiot,

L. U. No. 515, NEWPORT NEWS, VA.

Editor:

As I have been appointed press secretary, in fulfillment of my position will endeavor to give you a few happenings of our L. U., which is enjoying at the present time a fairly good membership.

We have had, or would say we still are having, a campaign among our members and other crafts pertaining to the rights to be enjoyed in this glorious land of liberty and freedom, of which the workingman of the past has neglected to a certain extent.

We all know that every working man residing in a state two years or more is entitled to a vote, providing they pay their poll-tax, which is a very small sum compared to the privileges received.

The coming election is a very important thing to look forward to, as it means a great help to the man or men who have to earn their livelihood by the sweat of their brow.

The reconstruction of the world depends upon them to a very large extent, and the conditions must be so that every man who leaves his home in the morning will be able to return again at night knowing that he has received a compensation worthy of his labor, and the way to gain this point will be to place men at the head of your respective governments that will fulfill their obligations in every sense of the word. And the only way, I find, that we will be able to place such men as this in office would be to vote for them. I care not which he may be—Republican, Democrat, Socialist or Prohibitionist—just so he is a man that you can depend upon; so my advice to all who may read this is to exercise the same spirit—pay your poll-tax and vote. By doing so you can help make the laws that make our land so beautiful to live in.

A short-circuit has just occurred on the voting line and I am now cut in on another line leading to ice cream, cake, cigars, cigarettes, etc., also sparks are flying from a committee of welders who have the floor for a few minutes, and speeches were delivered with a grand success by some of our worthy Brothers last night at our regular meeting.

Bing! Another short! Our B. A. reports

buying more shoes than pants. More power to the B. A.

Oh, there goes the light fuse and no more on hand and as it is very dark I will have to ring off. Hoping this meets with your approval, I am very truly yours for the fifth (Victory) loan.

Robert Affleck, Newport News, Va.

L. U. NO. 523, YAKIMA, WASH.

Editor:

Local No. 523 and 41A are still on the map and all busy except those who were working for the phone company and tried to organize nonunion help. For doing this work three girls and one lineman were fired.

However, to stop our members from getting fired, Locals 523 and 41A have hired the three girls who were fired by the phone company to do picket work in front of phone office and get applications. Local 523 voted 100 per cent for the phone strike.

The inside men and battery men are preparing their new agreement to present to the contractors and battery shops.

All indications show the inside shops will sign up 100 per cent strong. Inside men are asking for a 44-hour week at 90c per hour, and certain tools furnished.

The battery men hope to get a big share of the horses and better working conditions. They are asking an 8-hour day at 80c per hour, with gloves and aprons supplied.

Prospects for a busy year looks very good, but we have plenty men on hand to handle the rush.

The C. M. & S. P. Electrification is still going on in our jurisdiction. I hope to soon get some pictures and a write-up by some of the boys to send to the Worker.

Local 523 gave a party on April 21st to their wives and sweethearts and Local 41A. The evening was spent dancing, and later one of those good scrumptuous suppers that 523 is noted the world over for was supplied, and everybody voted in favor of another. Music was supplied by the Trades Council Jazz Band.

Very truly yours,

W. S. Gallant,
Press Sec. Local 523.

L. U. NO. 558, SHEFFIELD, ALA.

Editor:

At the time this letter leaves jurisdiction of Muscle Shoals, local 558 is patiently waiting for a favorable message from our delegate to Washington, D. C., and unless the message is favorable this local will participate in one of the largest "fishing trips" the Trun river has ever entertained.

We have a No. 1 case, which was presented by a live wire community to proper officials in a diplomatic manner, and in the next Worker you will be advised of the results obtained between diplomacy and dollar diplomacy.

The employees of Sheffield Co. are still out, this being the fifth week and they are hanging together like glue. A fine bunch of fellows and an early settlement for an increase and better working conditions looks good on the surface.

The hustling town of Florence has donated sufficient funds to Tri-City labor council to boost that town for State Labor convention next year. Florence, the best union town in Alabama is getting behind fifty delegates to state convention from this territory and its going to be a live wire bunch and they expect to bring home the bacon. The delegation will be headed by Barney Corruthers—the dynamo of the local labor movement.

At this time it looks like the majority of

locals in Sheffield will move across the river to the town which Barney made famous.

Fraternally yours,
Press Sec'y. of 558.

L. U. NO. 563, MARION, IND.

Editor:

It is with great pleasure that I am able to announce to the Brotherhood a new local, No. 563, and address all letters to Bro. Roy Follis, Recording Secretary, 1206 N. Washington Street in the future.

Now Brothers, I want to say that all the members are showing pep and Brothers look, Linemen 100 per cent, Inside men, 90 per cent, maintenance men 50 per cent. A home run right off the bat and every one of them a business agent. So Brothers if you are coming this way, you had better have that green card, as they say a 100 per cent is their goal. And say Brothers, it sure looks good too.

Well Brothers things have not started to move here yet but it sounds pretty good for the future. Of course we have a hard nut to crack and that is Lamp Cord John and his matting tacks, as there is no inspection here. It is go and get it. Now that is the Inside means nut. But God knows the — Linemen in this locality have one too. You can look up any of these alleys around here and say you would think of home sweet home. I know it is a disgrace to the trade both ways. A. C. W. C. High Tension and 110, and telephone cables and some open wire all in the same alleys of the Business Section of the town. It is layed off like the old Auction Block.

Now Brothers you have seen what team work will do. Look at the New England states Brothers and Sisters. What have they done? They have simply took that chip off of their shoulders and got together. Now why not the Central States do the same or all of us for that matter. Some of you will say it cannot be done. It has been done. If you hook up one side of your suspender a couple of inches to short and run a piece of Bell wire for the other one, what is the result? A sore shoulder. The same with a team of horses. Now Brothers let us all pull this load over together and not carry any chips as some do, which I know. Let us get together and find out what we all are up against and go at it together and not stand around and kick because so and so done this and that. Get in so and so and help him who helps you. Why is there a difference of 50-75-25 cents a day (for the same work) in wages in Ohio, Michigan, Illinois and Indiana, the lowest of them all bread and butter and beans and spuds cost almost the same in all four states and all one company too. Get together as the supreme test will soon be on and then what? Get together and find out by creating a District Council. Come on Brothers M. H. Patton and M. W. W. Let us hear from you. I like your ideas. Well Brothers I will cut the wire.

Yours fraternally.

L. I. Huey,
Acting Press Sec'y.

L. U. NO. 577, DRUMRIGHT, OKLA.

Editor:

Just a few lines from L. U. No. 577. We are still on the map with all of the boys at work except a few traveling Brothers, who are waiting for the high line to start, that is going to be built between this place and Muskogee. The date that the job starts has not been announced but it will not belong. They will work a pretty good sized bunch.

Yesterday was our regular meeting day

and we had a stormy session too. We transacted lots of business and several of the delinquents paid up their dues. Lots of interests was shown. One of the main discussions was that we had been too easy on members of our neighbor locals, and we have decided to enforce the law to the better. Anyone working in our jurisdiction must have the green traveling card or they will have to kick over with that dollar per. We have had a hard time getting along in the past, but now we are over the roughs and will be heard from more oftener. All crafts are well organized here, and as the old saying is we hang together. Well I am a little short on time so will dead end until next month, then we will be heard from again.

Yours for the cause

H. T. Johnson, Fin. Secy.

Drumright, Oklahoma.

L. U. NO. 584, TULSA, OKLAHOMA.

Editor:

Don't say it never happened before. I think our former Press Secretary sent a letter some time ago. This is a big job for me, a rough neck lineman that only went to school two days, first day no books and the next day no teacher. Brothers don't overlook the fact that Tulsa is the best town on the map. I say best for the oilinier (oil producer) and merchants.

Everybody pays for what he gets in and around Tulsa, butter 65 cents per pound, Canada ham 50 to 68 cents per pound. I mean the ham with the buttons on, most everything else in proposition. The article that still sells for the jitney is the box of ball bluing and nobody uses it. The inside men have pretty good conditions here, the linemen nix. We have a new lineman's agreement that took effect May 1st and the Companies did not run after us to sign up, so the scrap is on. Brother linemen stay shy of 584 jurisdiction until the companies ark over. The Sand Springs Light & Power Co. has already made the gap. Our new agreement is not a war horse, only 75 cents per hour for the men, the bosses to get 87½ cents per hour, eight and nine hours, Saturday afternoons off. We are asking for the standard time and one half and double time rate. Not many dollars brother when a fellow is in the oil field paying from 85 cents to \$1.25 for meals and sleeping in the moon shadow of an oil derrick. He rolls to and fro until the wee hours of morn. All that can be heard is the barker of a gas engine pumping the wealth from the earth for the oilinier. Mr. P. G. Walker, manager of the Public Service Co. has positively refused to meet and entertain a committee from 584. This morning when the men showed up for work they were informed that the Company had no work for them until difficulty is settled, also the money was ready for them so the committee called it a lockout in accordance with constitution and declared the job unfair. Brothers you have all heard and read about Street Car Strikes. Tulsa just had the experience of one. The motormen and conductors of the Tulsa Street Railway just recently organized. They had an agreement and could not settle the difference. On Easter morning they failed to take the cars out. Not a car was moved, not a car man to be seen on the streets. At six o'clock p. m. on the third day the agreement was signed and all men went on the job. I think the reader will agree with me when I say this was the quietest Street Car Strike that was ever pulled with fifty-two men.

Fraternally yours,

Car No. 109685.

L. U. NO. 732, PORTSMOUTH, VA.

Editor:

Since writing my last letter, several things have turned up which should not be passed over lightly.

In the first part of April we received a circular from the so-called Interstate Conference Board of Youngstown, Ohio, criticizing the action of the International Office in sending out the referendum on the several amendments to the constitution, claiming that these questions should be left to the next International Convention to settle.

I differ with the parties sending out that circular for I honestly believe that for the good of the I. B. E. W. the per capita should be raised at once, as no organization can carry on business in a proper way without sufficient funds.

We need more organizers in the field and it takes money to put them there and by putting this question of per capita off until the International Convention you simply make it so much harder for the Brotherhood to protect its membership and make the I. B. E. W. easy prey for the steam and operating engineers who are so very kind to offer to adopt a large part of our membership.

Speaking of these Engineers the writer very well remembers these kindhearted gentlemen. A few years ago when most of the members of Local 732 were in Local 80, the Engineers tried to get jurisdiction over all electric overhead cranes in the Norfolk, Va. Navy Yard and went before the C. L. U. of Portsmouth, Va., with their demand, but thanks to our vigilance we were there when the question came up and we beat them to it. The writer is glad to have been one of the delegates that did the trick. Now let us see if we cannot beat them to it at the A. F. of L. Convention.

We Railroad Electrical Workers, have the advantages over other Locals in this respect as you know Supplement No. 4 to General Order No. 27, issued by the Director General of Railroads gives us jurisdiction over Powerhouse men, Substation Operators and Electric Crane Operators and believe me, we are going to hold on to them too and the other shop crafts on the railroads will back us up.

This wonderful circular also takes a slam at us poor railroad electrical workers and claims that we have no right to exist as separate Locals on systems.

Our friends contend that the I. O. had no right to grant separate charters to railroad locals without consulting them, and so cause railroad electrical workers to transfer from outside locals to railroad locals where they rightfully belong.

Won't these people be surprised to find out at the Convention how many railroad locals there are in existence and will be represented at that great gathering. Local 732 expects to have a delegate at New Orleans to look out for its interest.

Hoping that the amendments to the constitution have been carried by a large majority and wishing the I. B. E. W. success in all its undertakings. I am.

Fraternally yours,

H. J. Kraemer,

Press Secretary.

L. U. No. 732.

413. Madison St., Portsmouth, Va.

L. U. NO. 734, NORFOLK, VA.

Editor:

Just a few lines to let you hear from Local 734. Business is still good here at the present time with good prospects for more new work. In my last letter to the Worker I stated about the Secretary of the Navy and his pet hobby in regards to Sunday work in all Navy Yards for maintenance. Well I am glad to say that we

got a decision in our favor, effecting all Navy Yards on the Atlantic and Pacific Coasts and Local 734 is our all credit for putting the present conditions in effect. Brother Giles our delegate to Washington, after getting in touch with Secretary of Labor Wilson, refused to leave until a decision had been rendered some way and it was due to his ability as a delegate to get a decision in our favor and all Locals effected should give him a vote of thanks for doing such faithful work.

Local 734 was glad to see the dispute over the Jurisdiction settled as it has caused a lot of friction between the different locals in this district.

Local No. 734 withdrew from Local 80 because of the arguments that arose in the hall and the senseless arguments that came up before its members, but it appears that 734 has members of its organization that are trying to put it on the same basis as Local 80 was at the time 734 withdrew.

I think if these members could see themselves as others see them, I think they would try to modify their action and cease to throw personal remarks at one another and to help to run the union as a local should be run, one for all and all for one. Would be a fine motto to follow and not to make a farce of the meetings. This I think has a great deal to do with our poor attendance of our members and I am sure unless some restraint is put on such actions our local will drop still further in the rut. We have a fine membership but no member wants to attend a performance put on by amateurs, when popular priced vaudeville is to be had for the small sum of two bits. It must be that these Bolshevik members are pulling the same tactics on 734 as they did on Local No. 80 when they were members of that organization. No doubt you may think that this is a little personal, but I can assure you that this is my last thought to be, so it is only to enlighten our members of the way that they are acting and its effects it will work on any local union.

We are now in progress of building two labor temples here, one in Portsmouth and one in Norfolk which will be the best thing organized labor could possibly do. The month of May we are going to celebrate the first anniversary of Local 734 and we expect to have a full attendance, so will close for this time.

Fraternally,

J. W. Bragg,

P. S.

L. U. NO. 756, FAIRMONT, W. VA.

Editor:

Will write a few lines for the Worker this month just to let you know that 756 is very much among the living.

Just one year ago the boys commenced to talk organization, and in June made application for a charter, and with the assistance of Organizer Smith we started local 756 with ten charter members, and have continued to grow beyond our expectations, so at the present time we have a membership in good standing very close the hundred mark and more applications to work from.

We have at the present time an agreement with The Traction Co., the first in the history of the company, which has been operating cars for the past eighteen years, and thanks to some of our never tiring brothers are positive we will have another one this year.

We held a smoker last meeting night and I invited all the non-union electrical workers to come and meet with us, but sorry to say, there was but one present, but that did not discourage us in the least, as we are inviting them up again next Friday night and we are going to keep after them till the last man is wearing a button and carrying

a card. We were honored last meeting night with Bros. Wm. Boggess, president of the West Virginia State Federation of Labor, who gave us a short but interesting talk and outlined the future of Fairmont as regards to organized labor.

Well, brothers, wishing all locals success for the coming agreements, will not punish you longer.

Harvey Childs,
Press Secretary.

Editor:

This is our first letter to the Electrical Workers Journal, but from now on we expect to have one in every issue.

This local is less than a year old, but we are very well organized. We have about forty members and are taking more in all the time.

We have a big program on hand at present and I hope to be able to write an interesting letter for next issue.

We find the letters of other locals interesting and hope more of them will contribute regularly.

Fraternally yours,
W. Tighe O'Neal,
Press Secretary.

L. U. NO. 817, NEW YORK.

Editor:

Again we find ourselves in the midst of a Liberty Loan drive, and we are very proud to say that we are giving our most steadfast support to help our country finish the job of cleaning up and bringing the boys back, back to God's country and theirs. Home and mother, wives and babies, brothers and sisters, all of them anxiously await their homecoming, and when we know all this, why shouldn't we all dig down and shell out to help our boys who helped us and held up their end of the fighting game with veterans of four years' experience. The man who refuses to help is no man at all. Few of us, if any, have not had someone, relative or friend, who was engaged in fighting the battle over there, or otherwise occupied in the naval or military service over here. None of us but what we have felt proud to know that they fought their battle without a kick. If they didn't kick, why should we? That's the reason they are getting our pledge to support them and the country for which they fought.

We had a special Victory Loan meeting on April 29, at which Mr. J. D. Hobbs, general inspector of telephone and telegraph, east of Albany, New York Central Lines, gave a very strong and fervent talk on the Victory Loan, making a vigorous appeal to the men to support this coming loan with all their might, and showing that the stability of the industries of the country rested on their undivided support. Mr. Hobbs proved to be a very interesting speaker and those present showed their appreciation of such by a tremendous outburst of applause at the conclusion of his speech. Sergeant Pat Coyne of the U. S. Army, the world's amateur champion trans-continental walker, who covered the distance from New York to San Francisco in ninety-five days, which is going some, and holder of numerous other walking records, also gave a very fine Liberty Loan appeal. The boys were with him to a man and many a "good boy, Pat" was heard during his talk and great enthusiasm was shown after. Taking it all in all, it was a huge success, and as the books of the New York Central would show. Local Union No. 817 is on top all the time when it comes to helping their country and anyone connected with it.

Time brings great changes in the lives of men, high and low in station, the poor as well as the rich. How many of us have thought it impossible to save some of our

earnings for the possible rainy day or when old age most surely overtakes us? How many of us have often said, "Oh, I'll wait until next pay to start that bank account," or, "There's no use in putting a dollar away, I'll wait until I get five?" Thousands; yes, tens of thousands, and more. Always the same old stuff. Putting it off until tomorrow, which steals the very life away from us. But, time has changed all this; made different men of us all. Now, few of us who cannot show what represents a comfortable little sum of money, so necessary to the poor man to guard against any unforeseen occurrences. And, the one thing that has caused this great change in the financial condition of the working man has been Liberty Bonds. We all dug primarily to help our country, and in doing so we have been digging a gold mine for ourselves. We did not realize at the outset, but time reaped a harvest for us, little by little having been extracted from our salaries due to the easy payment plan. Of course, this meant depriving ourselves of a great many necessities of life, but knowing and understanding the good cause compensated for all this. Then, we woke to the fact that we were being taught thrift; being taught how to save. The results were wonderful. Men who never knew what it meant to have fifty dollars above their current expenses, found themselves to be the proud possessor of one, two or more \$50 Liberty Bonds, a foundation upon which many a fortune was built.

We of local union 817 have grown to realize this, and that is why we have gone down deep in our jeans, knowing that by helping our country we have been, as our country wants us to know and feel, helping ourselves. That is the one secret of success in this world, and mixed with honesty will bring happiness and prosperity to all. Never abuse yourself, always help. There are a great many ways of doing this. Some men form bad habits which in order to become successful must be broken. Help yourself to do this, if you have any, and you will accomplish something for which you will be forever grateful. Local union 817 has set out to help themselves in improving the living and working conditions of its constituents, and in accomplishing this it will feel that the goal has been reached and entire satisfaction had. With a vigor and vim we are at it, and will not cease our efforts until our desires shall be appeased. A faithful and true spirit is ours, everything over and above board, which we think is an honest and sincere way of going about things. So, success to the Victory Loan, and long life to local union No. 817.

Fraternally yours,

C. H. DeSanto,
Press Secretary.

L. U. NO. 841, TOPEKA, KAN.

Editor:

Since my last letter to the Worker we have had a great many things happen in our local circles which I believe are of interest to the Brotherhood.

We all know the thing that concerns every working man or woman. The most is a decent and living wage; one that will enable every one to obtain more than the bare necessities of life. During the great world's war nearly all commodities advanced over 100 per cent. in price. In some lines of work there has been an advance in wages; in others there has been little if any at all. Well, the companies that employ the majority of the members of 841 come in the class of "little." They are the Southwestern Bell Telephone company, the Edison Electric Light company, and the City Municipal Light Plant.

After much hard work we succeeded in drafting a scale of wages and contract. Our

scale is about the same as the wages paid by the railroads. Each company was presented with the scale about April 20. We have not heard from them yet, but expect to hear tomorrow evening, the 9th. We were assured by each party that the schedule asked was a reasonable one, and that every effort would be made to grant it. If the schedule is accepted I hope to have it published in the next issue of the Worker.

Monday night, April 21, we pulled off our first annual ball. It was a complete success, both financially and socially, due to the faithful work of the committee in charge, consisting of Bros. Price, Fink, Lawhun, Molloy and Conway. Bro. Price was the banner booster, selling more than thirty tickets, with Bro. Lahun a close second. We ought to be able to repeat this next spring with out second annual.

Steps have been taken toward a Labor Day celebration in Topeka. The Industrial Council has suggested a 20-cent assessment per member of each affiliated local in order to have funds. Bros. Molloy, Fink, Hoffman, Wright and Lawhun have been appointed a committee to arrange for our part in it.

We received three new applications last meeting night. We are growing slowly but surely. We hope to get more in the near future. We have one bugbear in our midst and that is the cable department of the Bell. Two supervisors in this department seem to be irreconcilable to our cause, and to show their autocratic power they discharged Bro. Schute last Saturday. They may get by with such crookedness now, but sooner or later they will have to answer for their unfair treatment of employees.

We have had quite a mixup with the Edison Electric Light company, but it has been settled satisfactory. Two meter installers were discharged for joining our union, but upon the urgent appeal of the Street Carmen's and Inside Electrical Workers local they were promised re-employment by Superintendent Purdy.

There is plenty of work in our trade here at present. There is a demand especially for linemen and helpers.

With success to all and the best wishes to the Brotherhood, I remain,

Yours fraternally,

H. N. Lower, P. S.

Local 841, I. B. E. W.

L. U. NO. 865, BALTIMORE, MD.

Editor:

After a long period of watchful waiting am glad to be able to say we are getting our Electrical Workers Journal regular now. Brother Edwin E. Grain has just returned from several weeks sojourn in Pittsburg, Pa. He brings back a very good report of L. U. No. 750. They have four roads under one Local with a roll call of four hundred members or more, very good for Pittsburg. We rejoice with them and wish them every success.

The many friends and brothers of Bro. W. Miller, the Baltimore & Ohio Railroads Meter Expert, will be grieved to hear of his long illness, our good brother still confined to the hospital.

Could any brother tell us through the Journal the secret of big meetings. It does seem hard to get some of the brothers to attend regular and take an active interest in the work of the Journal. Still in some respects its excusable at this time. What with the Liberty Loan? Receptions for returned heroes and a hot fight for the majority, it's as much as we can do to get sufficient sleep to carry us on from one day to another. We all hope if once the staid old City of Baltimore ever gets cooled down and running normal? To do heavy work for 865. Hoping this letter finds all the brothers scattered over the road, seated on the

throne of health, with happiness for a canopy, and prosperity for a footstool.

Yours fraternally, Chas. H. Earwaker,
524 N. Fulton Ave Press Agent.

L. U. NO. 880, PITTSBURG, PA.

Editor:

Just a few lines for this month's Worker to let all know that Local 880 is progressing fine. Have been taking in new members every meeting night and have been fortunate in having the presence of Brother Arthur Bennett at our meetings, which have been well attended. We are still confronted with the unemployment problem. Quite a few of the members being out of work, or working a short time. Then we have quite a few members who are willing to let themselves go delinquent for no good reason at all.

Taking all these problems and quite a few more that come up we are always glad when we see Brother Bennett coming into our meetings. He has always been so willing and able to help us take care of things.

We have decided to hold our meetings at Moorehead Hall, Second Avenue and Grant St., third floor, and wish all the members to take notice of the change and that all attend the meetings that can possibly do so.

We need your help by your presence there, as the bigger the turn out the better. Help those that want to help you. Get upon the floor when your time comes and let us hear your idea of the question. We extend a hearty invitation to Brother Broach and Brother Kloter to come and see us when ever they can.

Hoping to see this in the next issue
Jack Keeling, of the Worker, I am
Local No. 880. Press Secy.

L. U. NO. 890, JANESVILLE, WIS.

Editor:

Strike? Sure, and you would, too, and long before this if your conditions were the same as ours. Strike was called about two weeks ago and so far we have had four scabs, all home boys, too. Can you beat that?

They have tried to bring in outside help, but our pickets send them back as soon as they land. About the lowest tricks they have pulled yet is to take a fellow out of jail and put him to work. He is under the State Board of Control and had to like it, but we soon "jimmied" that for them.

This is the quietest thing I ever heard of, in fact we can't even get on the front page at all. All trades are willing and are doing all they can to help us win and of course we are grateful to them for their support. What we need is a storm that will put everything "on the bum," then they may come across, but they will have it anyway; so will let you know how later.

Fraternally, J. N. L.

L. U. NO. 919, ERWIN, TENN.

Editor:

This is our first appearance—our debut, if you please, in the I. B. E. W. We recently organized the electrical workers of this little city and are now busily engaged in getting the kinks straightened out between our members and their employers. So far we have had fair success and we believe the near future will find things as they should be. We received our first copies of the Worker and were pleased to find our local listed. We hope to be able to have something to say in the Worker from time to time. Our local was organized March 29 with twelve charter members, but we expect to grow; in fact, we have already

grown. We have a business agent, Brother J. A. Wallace, who is on the job, and it is our plan to have all electrical workers within our jurisdiction lined up for organized labor.

Trusting the first correspondence from Local 919 will be acceptable, I am,
Yours fraternally,
Chas. E. Perkins, R. S.

DISTRICT COUNCIL, PENNA. AND ALLIED LINES.

Editor:

A few lines from the railroad electrical workers employed on P. R. R. System and Allied Lines, concerning the stand some of the older locals are taking regarding the chartering of railroad locals in their jurisdiction. The railroad electrical worker has little opportunity of trespassing upon the rights of the Building Trades Locals, and has no desire to do so; in fact, will not do so, for we appreciate the interest of one is the concern of all. Railroad Organizations will co-operate in every possible manner with the building trades craftsmen, and we believe this spirit is mutual on the part of those employed in the Building Trades Industry. There are some few, who may be inclined to find fault, but happily they are the small minority and not representative of the average trade unionist. The railroad electrical worker is now in the position to refuse to do work which properly belongs to the building trades electrical worker. Thanks to our Organization. Prior to our becoming organized, this condition was not possible for refusal would mean immediate discharge.

The claim is put forth that the railroad man will do work that should be done by building trades men. The building trades locals had no trouble taking care of their work before the railroad men were organized, and it does not seem reasonable that the railroad man is going to do more of this work now that he is a member of the organization and receives a fair pay than he did when he knew nothing of organization and received next to nothing in pay.

The building trades locals will have no trouble with the railroad locals if they will only show a little spirit of cooperation. There has been only one jurisdictional dispute on the Pennsylvania and that was very satisfactorily settled between the two Locals when they got together on it.

There are now affiliated with this District Council about 2600 electrical workers in 19 different locals, eighteen months ago you could hardly have found 100 union men on the entire System. The same would apply to any of the mechanical crafts on the P. R. R., but now they are affiliated with System Federation No. 90 of the Railway Employees Department, 17,000 Machinists; 3,800 Boilermakers; 3,500 Blacksmiths; 2,800 Sheet Metal Workers, 20,000 Carmen and 2,600 Electrical Workers.

Yours for Government Ownership of Railroads.

Geo. W. Woomer,
Pres. District Council.

LEAGUE OF NATIONS.

(By A. W. Wright, P. O. Box 894, Little Rock, Arkansas.)

The advisability of the formation of a League of Nations has been written about and talked by men who are considered authority on many vital political matters, by men who make the affairs of the Nation their study. They are all men of exceptional good judgment, but the fact that their ideas differ is proof conclusive that some of them are wrong.

Looking at the proposition from an organized labor standpoint, we are unable to see where any point for an argument can be found that would apply against the nations forming into a collective body the same as individual organization and for the same purpose, that of mutual protection against the common foe.

There are calamity howlers who claim that the formation of a league of nations will have a tendency to create wars instead eliminating the strife that has always been cursing the world. Where they get the material for that argument we are unable to see for the provisions in the covenant tying the hands of all nations belonging to the league for a period of two years and compelling the submission to arbitration any difference between nations that may arise makes future wars very improbable, if not impossible. Had a league of nations been in existence before the war mad ruler of Germany started his destruction of men and countries, we are sure that the killing and maiming of millions of our fellowmen and vast ruins of cities and homes that now exist would not have been a matter of history as is the case now.

Those same calamity howlers are trying to install into the minds of the workers, that should a league of nations be adopted and any country belonging to the league have labor trouble, that country could call on any other nation for help and the country that is having the trouble be flooded with surplus labor and the object of the native toilers be defeated. That claim is absolutely groundless for their provisions made in the covenant permitting all nations to make and enforce their own domestic laws, consequently an emigration law can be enforced prohibiting the influx of foreign labor.

Notice, if you please, those who are now opposing the formation of a league of nations. Some republican leaders are opposing the plan now with hopes of delaying the deal until that party is in power, thereby giving the honor to their followers. They have followers who belong in the class of narrow-minded, petty politicians who think, to blow their blasts of brimstone air against the plan will curry favor with those higher up. They are like the school boy who learns his speech from a book and then repeats it in public, they merely preach what they have been taught for they have no minds of their own.

Since time immemorial labor has been striving to consummate solidarity among the workers. The most remote authentic proof of unionism dates back to about four thousand years before Christ when, during the erection of a most wonderful building, for that ancient date, no one was permitted to work unless they could make themselves known as a member of the craft. On that particular project eight hours constituted a days work and other working conditions were ideal. That organization had much opposition then and efforts to organize for mutual benefit from that time up to the present has met with opposition. At present, organized labor is being recognized generally more than ever in history and the formation of a union of nations will be the crowning feature of the doctrines of organized labor. Modern unionism is

merely a revivification of the principles taught in olden times, with corrections of mistakes made in the past. The league of nations, in its first analysis, may not meet with the approval of all, neither did the first labor union, but profiting by past errors perfection will eventually be reached. Organized efforts of the working class to better conditions has met with many obstacles, has had many set backs but has never known absolute defeat and never will for right will always win. The league of nations will have stumbling blocks thrown in its pathway, it will have its enemies the same as all organized efforts for the betterment of the common people, but in our opinion, the fundamental principles are just and right and it must prevail.

The workers the world over are intensely interested in making the future safe for the descendants of men and they are determined that neither the selfish interests of any nation, nor the intriguing diplomacy of any individual shall again plunge the world into the chaos of war. There is no taint of cowardice in the hearts of the working people. They do not only answer the bugle call for right, but they carry the load of every war that is fought and they pay the price. Even though they do not sow the seeds of wars, they reap the bloody destructive harvest. With representation in the league of nations the toilers will be able in the future to help very materially in shaping and guiding world affairs, and true to the principals of organized labor the seeds of unification, cooperation and arbitration will be planted in the hearts of all man kind to a great extent.

There must be established some real international medium for meeting and handling great world wide industrial and social question that arise from time to time and what better assurance could there be than that of having such questions receive consideration to which they are entitled, and the protecting and guiding influence of the league of nations for their just determination.

As the workers stood shoulder to shoulder in the trenches and the great war industries in their efforts to win victory for Democracy, they should, in our opinion, still stand shoulder to shoulder and fight for this great movement to unify the nations in the same way that we have been striving for ages to unify the toilers of the world. The workers of all nations being protected by the clause in the covenant making it mandatory for each country to make and enforce its own domestic laws should dispense with any fear that organized labor might have, that foreign labor could be imported into a country to take the places of the toilers who might be struggling to better their conditions.

"In union there is strength" and in the formation of the league of nations the whole world will be greatly strengthened in a beneficial way, and thus bear out the principals of organized labor conclusively. Organized labor has taught unity for ages, and now that the world powers are trying to organize into a collective body, for the protection of all nations, on the same principal that the workers organize for their protection, it is, as we see it, the imperative duty of organized workmen to support the movement absolutely.
